7. Write a project description that will serve as a stand-alone summary of the project for legislative review. The description should summarize the entire project's intended purpose, the purpose of the funds requested (if request is a sub-part of the entire project), and most importantly the detail on how the funds requested will be spent - for example how much will be spent on positions and associated salaries, specifics on capital costs, and detail of operational expenses. The summary must list what local, regional or statewide interests or areas are served. It should also document the need for the funds, the community support and expected results when applicable. Be sure to include the type and amount of services as well as the number of the specific target population that will be served (such as number of home health visits to X, # of elderly, # of school aged children to receive mentoring, # of violent crime victims to receive once a week counseling etc.)

The requested funds will extend the follow up services of the Outward Bound FINS DJJ Prevention Program for 200 youth per year. Expected program results include an increase in the percentage of youth who successfully complete the Outward Bound FINS DJJ Prevention Program and a decrease in recidivism for youth who complete the program. Youth are expected to benefit from increased support in changing their behavior at home and school. Parents are expected to benefit from increased resources and support, which will help them to guide their child who is in the program and other children away from delinquent behaviors. In addition to the youth and families participating in the program, their communities will also benefit from increased public safety. Completion and recidivism will be reported annually by the Department of Juvenile Justice's Comprehensive Accountability Report.
