The description should summarize the entire project's intended purpose, the purpose of the funds requested (if request is a sub-part of the entire project), and most importantly the detail on how the funds requested will be spent - for example how much will be spent on positions and associated salaries, specifics on capital costs, and detail of operational expenses. The summary must list what local, regional or statewide interests or areas are served. It should also document the need for the funds, the community support and expected results when applicable. Be sure to include the type and amount of services as well as the number of the specific target population that will be served (such as number of home health visits to X, # of elderly, # of school aged children to receive mentoring, # of violent crime victims to receive once a week counseling etc.)

This program will directly implement strategies Two and Nine of the Florida Strategic Plan for Economic Development, and encourage job growth. A strategic statewide picture of Florida's industry clusters and their supporting relationships, assets, and opportunities at the local level will be developed. This work will highlight opportunities to support business development and job creation with special emphasis on identifying opportunities for business expansion in the smaller and rural counties in need of economic investment and job creation.

Many relationships, assets, and opportunities important to business growth and critical industries cross local and regional boundaries or extend outside of Florida. Economic Development Districts (EDD), with their regional focus and statewide coordination function, are uniquely positioned to spearhead and administer this initiative.

This program will generate two unique outcomes critical to Florida's future economic development and the creation of jobs:

? The first statewide industry cluster map and analysis that includes and documents supplier relationships and out-of-state suppliers to Florida's existing and emerging industry clusters.

? Guidance to counties, municipalities, and economic development organizations related to the best use and leverage of their economic and community development funds to attract industry cluster suppliers and supportive businesses to their community.
