7. Write a project description that will serve as a stand-alone summary of the project for legislative review. The description should summarize the entire project's intended purpose, the purpose of the funds requested (if request is a sub-part of the entire project), and most importantly the detail on how the funds requested will be spent - for example how much will be spent on positions and associated salaries, specifics on capital costs, and detail of operational expenses. The summary must list what local, regional or statewide interests or areas are served. It should also document the need for the funds, the community support and expected results when applicable. Be sure to include the type and amount of services as well as the number of the specific target population that will be served (such as number of home health visits to X, # of elderly, # of school aged children to receive mentoring, # of violent crime victims to receive once a week counseling etc.)

The Central Florida Zoo and Botanical Gardens (CFZBG) currently offers conservation and education programs based on national and state standards serving 189,000 children grades 1 ? 5 from 5 Central Florida Counties. This project enables the CFZBG to serve middle and high schools and colleges/universities from the same counties and beyond.

The US job growth from 2012 ? 2022 is expected at 11%:

Zoo tech growth = 11% With an AAS degree & 1 year experience at AZA accredited Zoo - 90% job placement success

Zoo director growth = 8% With a BS degree & 1 year experience at AZA accredited Zoo - 97% job placement success

Vet tech growth = 13% With an AAS degree & 1 year experience at AZA accredited Zoo - 97% job placement success

In 2012 the CFZBG obtained an additional 17 acres from Seminole County. This increased the Zoo's footprint for future growth. The Zoo has determined the best use of the land is to develop an Educational/Conservation Campus for veterinarian center, conservation center, classrooms, labs/research and auditorium.

Total build out is \$19 million (ESTIMATE). \$2 is estimated in site planning and preparation. In our considerable experience site planning and preparation is NOT a philanthropic driver. A request from the State to launch the plan is requested.

The funds are to be used for water, sewer, power and IT lines. No funds will be used for salaries nor operational expenses.

8. Provide the total cost of the project for FY 2016-17 from all sources of funding:

Federal: 0

State: 0 (Excluding the requested Total Amount in #4d, Column G)

Local: 0

Other: 18,000,000

9. Is this a multi-year project requiring funding from the state for more than one year?

No
