The Clermont Downtown Gateway project plan provides for enhancement of the entrance into downtown. Currently, access to the downtown area is undifferentiated and unremarkable. The project plan includes significant gateway architectural elements and signage, sidewalks, streetscaping, lighting and low-impact stormwater management. The budget for the project is \$0.4 million.

Construction impacts will create 5 total new jobs earning \$0.3 million in income and generate more than \$0.7 million in gross state product. State and local taxes on production solely from construction of the project plan will generate nearly \$20,000. Increased recognition of the downtown corridor and improved opportunities are expected as a result of the project plan.
