7. Write a project description that will serve as a stand-alone summary of the project for legislative review. The description should summarize the entire project's intended purpose, the purpose of the funds requested (if request is a sub-part of the entire project), and most importantly the detail on how the funds requested will be spent - for example how much will be spent on positions and associated salaries, specifics on capital costs, and detail of operational expenses. The summary must list what local, regional or statewide interests or areas are served. It should also document the need for the funds, the community support and expected results when applicable. Be sure to include the type and amount of services as well as the number of the specific target population that will be served (such as number of home health visits to X, # of elderly, # of school aged children to receive mentoring, # of violent crime victims to receive once a week counseling etc.)

The proposed Community Resource Center will provide a place where an impoverished individual can get a bite to eat, take a shower, receive a clean change of clothes and then be referred to agencies in our area. A properly run community resource (drop-in) center has the potential to help an individual return to the mainstream community. Many homeless individuals are suffering from malnutrition, mental illness, substance abuse, physical disability and/or a chronic health condition. Many need help in finding help. PHP's resource center will provide an opportunity for people to help themselves out of the rut they may be in ? a rut where they are stuck unless there is a path to an improved quality of life.

Since 2009, these programs have already helped to improve the quality of life for many citizens of Hernando County. PHP's programs may actually help the county in many ways as PHP's programs improve the nutritional value and quantity of available food to those who receive food assistance from PHP. Possible benefits include reduced jail time as some individuals may resort to crime to provide food for their families; reduced emergency room visits due to poor nutrition; better grades in school by needy students receiving weekend food; and reduced hospitalization for medical conditions that are often made worse by poor diet and nutrition.

8. Provide the total cost of the project for FY 2016-17 from all sources of funding:

Federal: 0

State: 0 (Excluding the requested Total Amount in #4d, Column G)

Local: 200,000

Other: 0

9. Is this a multi-year project requiring funding from the state for more than one year?

No
