7. Write a project description that will serve as a stand-alone summary of the project for legislative review. The description should summarize the entire project's intended purpose, the purpose of the funds requested (if request is a sub-part of the entire project), and most importantly the detail on how the funds requested will be spent - for example how much will be spent on positions and associated salaries, specifics on capital costs, and detail of operational expenses. The summary must list what local, regional or statewide interests or areas are served. It should also document the need for the funds, the community support and expected results when applicable. Be sure to include the type and amount of services as well as the number of the specific target population that will be served (such as number of home health visits to X, # of elderly, # of school aged children to receive mentoring, # of violent crime victims to receive once a week counseling etc.)

The Desoto County Jail is an extremely aged facility made up of a portion that was an original building and later expanded in the 70's which results in a number of challenges in its operation. The entire facility is aged and not complaint with current jail standards. The current jail provides challenges in meeting a number requirements in populations including overcrowding, separation for juveniles, sight and sound separation for certain populations and accessibility in accordance with Florida Administrative Code. the Sheriff had communicated concerns of liability due to the conditions of the current facility. In 2011 the BOCC commissioned an independent evaluation of the facility and a cost feasibility study, performed by Clemons, Rutherford & Associates, Inc. The feasibility study clearly identified serious concerns based on code compliance with current standards and operational challenges. A number of options were reviewed to study the costs including rehabilitating the current facility, replacing the facility on the current site, ore replacing the facility on a new site. All averaged 18M. This request would provide the county with funds to acquire property (limited availability in appropriate vicinity) for the jail replacement and provide design and site preparation funding. Once a design is complete, we can move forward in getting true cost estimates and explore financing options for a project of this magnitude.

8. Provide the total cost of the project for FY 2016-17 from all sources of funding:

- Federal: 0
- State: 0 (Excluding the requested Total Amount in #4d, Column G)
- Local: 0
- Other: 0

9. Is this a multi-year project requiring funding from the state for more than one year?

No
