7. Write a project description that will serve as a stand-alone summary of the project for legislative review. The description should summarize the entire project's intended purpose, the purpose of the funds requested (if request is a sub-part of the entire project), and most importantly the detail on how the funds requested will be spent - for example how much will be spent on positions and associated salaries, specifics on capital costs, and detail of operational expenses. The summary must list what local, regional or statewide interests or areas are served. It should also document the need for the funds, the community support and expected results when applicable. Be sure to include the type and amount of services as well as the number of the specific target population that will be served (such as number of home health visits to X, # of elderly, # of school aged children to receive mentoring, # of violent crime victims to receive once a week counseling etc.)

The Department of Corrections (DOC) is currently using antiquated technology to assist them in making informed decisions. Because DOC is not equipped with current technological tools to acquire, consolidate, cleanse and analyze data, they are unable to effectively measure behavior, improve outcomes and make data driven decisions on how to best utilize the resources they are given.

Equipping the Department with critical analytical tools will help the Department and the Legislature better understand and manage two discreet problems:

- 1) the HOW, WHY, WHEN, WHERE and WHO of prison fatalities and how best to mitigate future incidents
- 2) how to best focus the resources available for job training and recidivism programs by using data science to accurately identify people within three discreet groups: those will end up back in prison no matter what services they receive, those who will never return to prison whether they receive services or not, and the last group being prisoners who have the potential to be positively impacted by services and therefore need and deserve the best and most services possible and available

8. Provide the total cost of the project for FY 2016-17 from all sources of funding:

- Federal: 0
- State: 0 (Excluding the requested Total Amount in #4d, Column G)
- Local: 0
- Other: 0

9. Is this a multi-year project requiring funding from the state for more than one year?

No
