7. Write a project description that will serve as a stand-alone summary of the project for legislative review. The description should summarize the entire project's intended purpose, the purpose of the funds requested (if request is a sub-part of the entire project), and most importantly the detail on how the funds requested will be spent - for example how much will be spent on positions and associated salaries, specifics on capital costs, and detail of operational expenses. The summary must list what local, regional or statewide interests or areas are served. It should also document the need for the funds, the community support and expected results when applicable. Be sure to include the type and amount of services as well as the number of the specific target population that will be served (such as number of home health visits to X, # of elderly, # of school aged children to receive mentoring, # of violent crime victims to receive once a week counseling etc.)

The Promenade project plan is aimed at maximizing the number of people that can be accommodated downtown, either by living (residential), staying (hotel), or visiting (events). The project plan provides for venues from small festivals to huge races and regattas, along with a continuous waterfront path experience and pier with docking capabilities at the foot of 8th Street. The budget for the project plan is more than \$6.7 million. The activity is expected to generate significant business for Monroe Street businesses and others in the vicinity. Increased business activity will generate additional property value and sales tax collections. Construction impacts will create 84 total new jobs earning \$5 million in income and generate more than \$11 million in gross state product. The incremental activity created by the project plan will create more than 100 permanent on-going new jobs earning \$4 million in income and generate more than \$15 million in annual gross state product. Development of the project plan is expected to increase residential and visitor counts to the area by 20,000 annually. State and local tax on production solely from construction of the project plan will generate \$230,000.

8. Provide the total cost of the project for FY 2016-17 from all sources of funding:

- Federal: 0
- State: 0 (Excluding the requested Total Amount in #4d, Column G)
- Local: 3,335,825
- Other: 0

9. Is this a multi-year project requiring funding from the state for more than one year?

No
