The project consists of the construction of improvements along East International Speedway Boulevard, from the Halifax River to the Ocean. This gateway to the World's Most Famous Beach is a blighted corridor in need of significant improvement. The intent is to make world-renowned Daytona Beach a world-class destination. The project involves transportation, safety, aesthetic and capacity improvements that will significantly enhance the economic viability of the City. The project is needed immediately to accommodate substantial public and private investment in the beachside including over \$200 million in private investment and nearly \$50 million in public investment in the next three years.

The State will benefit from Daytona Beach's enhanced position as a World-Class destination, as will the entire region.
