7. Write a project description that will serve as a stand-alone summary of the project for legislative review. The description should summarize the entire project's intended purpose, the purpose of the funds requested (if request is a sub-part of the entire project), and most importantly the detail on how the funds requested will be spent - for example how much will be spent on positions and associated salaries, specifics on capital costs, and detail of operational expenses. The summary must list what local, regional or statewide interests or areas are served. It should also document the need for the funds, the community support and expected results when applicable. Be sure to include the type and amount of services as well as the number of the specific target population that will be served (such as number of home health visits to X, # of elderly, # of school aged children to receive mentoring, # of violent crime victims to receive once a week counseling etc.)

The funds would be used to facilitate, enhance, and develop a statewide training program and materials for Florida port workers. The program would also be offered to both national and international port workers for certification programs as required by port users. The program would further enhance Florida's strategic position as a gateway to increase trade and commerce. By enhancing and providing uniform training, the results will be increased production and safety for Florida ports and their trading partners. This is critical because in order to keep pace with the expansion of the Panama Canal and Caribbean area countries, it is important that our trading partners and ports receive adequate training to be able to create a seamless, safe, and secure system. By offering such training both nationally and internationally we would generate additional tourism dollars into all parts of Florida (see attached for various courses offered).

8. Provide the total cost of the project for FY 2016-17 from all sources of funding:

Federal: 0

State: 0 (Excluding the requested Total Amount in #4d, Column G)

Local: 0

Other: 100,000

9. Is this a multi-year project requiring funding from the state for more than one year?

No
