The description should summarize the entire project's intended purpose, the purpose of the funds requested (if request is a sub-part of the entire project), and most importantly the detail on how the funds requested will be spent - for example how much will be spent on positions and associated salaries, specifics on capital costs, and detail of operational expenses. The summary must list what local, regional or statewide interests or areas are served. It should also document the need for the funds, the community support and expected results when applicable. Be sure to include the type and amount of services as well as the number of the specific target population that will be served (such as number of home health visits to X, # of elderly, # of school aged children to receive mentoring, # of violent crime victims to receive once a week counseling etc.)

Funds to be spent on Engineering, Planning, Project Management and Implementation of urgent maintenance required of our canals and the Intercostal waterways. Since the creation of the three (3) man-made Islands (in 1929) that makeup the three islands of the Town there has been no maintenance of the six (6) canal ways. These canals are ?like? inlets that are found in the middle of the Inter-Coastal. Throughout the last 86 years, settle mentation, silt and other matter has accumulated leaving these waterways hardly navigable. The project when constructed will ultimately affect residents of northern Miami Dade County and the beaches. The navigable waterways are key in this region. Both the Police Marine Patrols, Fire-Boat Operations and other services will be enhanced. There will be Progress reports and constant monitoring

8. Provide the total cost of the project for FY 2016-17 from all sources of funding:

- Federal: 0
- State: 0 (Excluding the requested Total Amount in #4d, Column G)
- Local: 500,000
- Other: 0

9. Is this a multi-year project requiring funding from the state for more than one year?

Yes
