7. Write a project description that will serve as a stand-alone summary of the project for legislative review. The description should summarize the entire project's intended purpose, the purpose of the funds requested (if request is a sub-part of the entire project), and most importantly the detail on how the funds requested will be spent - for example how much will be spent on positions and associated salaries, specifics on capital costs, and detail of operational expenses. The summary must list what local, regional or statewide interests or areas are served. It should also document the need for the funds, the community support and expected results when applicable. Be sure to include the type and amount of services as well as the number of the specific target population that will be served (such as number of home health visits to X, # of elderly, # of school aged children to receive mentoring, # of violent crime victims to receive once a week counseling etc.)

The North East Miami-Dade Region lacks a harden facility for Emergency Landfall Teams; we propose to house such a facility in our proposed new Civic Center (Town Hall and Police Complex) Funds to be spent on Engineering, Planning, Studies, Architectural Design, Regional Impact Study, and Project Management . The project when constructed will ultimately affect residents of northern Miami Dade County and the beaches. Given that growing concerns of rising sea-levels and server weather, having a harden facility where emergency response team members can ?ride-out? a storm is curial to saving lives. It is important for us not to forget that the barrier island communities are literally an island onto themselves dependent on causeways to provide access to travelers between the mainland and the barrier community. Should a catastrophic event ever impede the use of such causeways the 180,000+ residents would literally and figuratively be on their own. Thus as stewards of good public policy and leaders tasked with ensuring the good and welfare of our public, it is our obligation to take the necessary steps to move forward with an aggressive, yet strategic planning process to meet the underserved need of our collective communities.

8. Provide the total cost of the project for FY 2016-17 from all sources of funding:

Federal: 0

State: 0 (Excluding the requested Total Amount in #4d, Column G)

Local: 600,000

Other: 0

9. Is this a multi-year project requiring funding from the state for more than one year?

Yes
