7. Write a project description that will serve as a stand-alone summary of the project for legislative review. The description should summarize the entire project's intended purpose, the purpose of the funds requested (if request is a sub-part of the entire project), and most importantly the detail on how the funds requested will be spent - for example how much will be spent on positions and associated salaries, specifics on capital costs, and detail of operational expenses. The summary must list what local, regional or statewide interests or areas are served. It should also document the need for the funds, the community support and expected results when applicable. Be sure to include the type and amount of services as well as the number of the specific target population that will be served (such as number of home health visits to X, # of elderly, # of school aged children to receive mentoring, # of violent crime victims to receive once a week counseling etc.)

This appropriation of \$94,000 will allow the FL Department of Management Services to obtain additional independent and objective information technology research specifically designed specifically IT professions and the DMS CIO. DMS' Information Technology group has established a list of Strategic Priorities, all supported by key initiatives that align to the department's goals. These types of services ensure the DMS IT professionals and CIO have the ability to request advanced research and speak to former private and public sector CIOs about their experiences, the best way to proceed on complex issues, to improve IT efficiencies, reduce IT costs, and review contracts and IT tools. Additionally these services will assist DMS in creating an information security strategic plan, evaluate tools and processes that would best support the agency and help ensure all information is protected with solid proactive and reactive security measures.
