7. Write a project description that will serve as a stand-alone summary of the project for legislative review. The description should summarize the entire project's intended purpose, the purpose of the funds requested (if request is a sub-part of the entire project), and most importantly the detail on how the funds requested will be spent - for example how much will be spent on positions and associated salaries, specifics on capital costs, and detail of operational expenses. The summary must list what local, regional or statewide interests or areas are served. It should also document the need for the funds, the community support and expected results when applicable. Be sure to include the type and amount of services as well as the number of the specific target population that will be served (such as number of home health visits to X, # of elderly, # of school aged children to receive mentoring, # of violent crime victims to receive once a week counseling etc.)

The initial funding has been used to set up a physical center for practice and to begin building a professional and highly qualified infant mental health workforce. Recurring funding of \$1,000,000 will continue support of these positions and IFMHC operations. Twenty Five (25) candidates to participate in intensive clinical infant mental health training were recruited, qualified and subsequently admitted to an eighteen (18) month Child-Parent Psychotherapy (CPP) training to build capacity for therapeutic mental health services for young children and their families. In addition, training was provided to support the professional development of entry level infant mental health practitioners through the Infant-Family Mental Health Certificate Program at USFSP and community training in topics relevant to supporting families with very young children. This newly trained infant-family mental health professional workforce will provide the needed supports and services to children ages 0-5 years and their families in the Tampa Bay Community. The supported personnel include a Center Director, Training Director, Programs Director, Clinicians, and a Research Scientist.
