7. Write a project description that will serve as a stand-alone summary of the project for legislative review. The description should summarize the entire project's intended purpose, the purpose of the funds requested (if request is a sub-part of the entire project), and most importantly the detail on how the funds requested will be spent - for example how much will be spent on positions and associated salaries, specifics on capital costs, and detail of operational expenses. The summary must list what local, regional or statewide interests or areas are served. It should also document the need for the funds, the community support and expected results when applicable. Be sure to include the type and amount of services as well as the number of the specific target population that will be served (such as number of home health visits to X, # of elderly, # of school aged children to receive mentoring, # of violent crime victims to receive once a week counseling etc.)

Primarily, this funding will be used to supplement operations college-wide and to partially fund initiatives relating to increasing the completion and retention rates at the College in an effort to meet the demands of the new performance funding model. With the increasing enrollment, operating costs necessarily increase; these costs include, among other things, the need for additional student support staff such as academic and financial aid advisors, career and testing services and of course, faculty. In prior years when PHSC has grown, there have been insufficient state funds to meet the needs and, as a result, PHSC became the lowest funded college in terms of needs being met. The special awards given in the 2014 legislative session to a select number of colleges together with the base funding put at risk through the performance funding model will again put PHSC, the fastest growing college in the state, near the bottom in terms of needs funded.

8. Provide the total cost of the project for FY 2016-17 from all sources of funding:

- Federal: 0
- State: 0 (Excluding the requested Total Amount in #4d, Column G)
- Local: 0
- Other: 0

9. Is this a multi-year project requiring funding from the state for more than one year?

Yes
