7. Write a project description that will serve as a stand-alone summary of the project for legislative review. The description should summarize the entire project's intended purpose, the purpose of the funds requested (if request is a sub-part of the entire project), and most importantly the detail on how the funds requested will be spent - for example how much will be spent on positions and associated salaries, specifics on capital costs, and detail of operational expenses. The summary must list what local, regional or statewide interests or areas are served. It should also document the need for the funds, the community support and expected results when applicable. Be sure to include the type and amount of services as well as the number of the specific target population that will be served (such as number of home health visits to X, # of elderly, # of school aged children to receive mentoring, # of violent crime victims to receive once a week counseling etc.)

The City of Parkland is seeking financial assistance with the costs of roadway improvements in the portion of the City known as "Pine Tree Estates". Pine Tree is one of the older communities in the City and includes roughly 911 acres. It is comprised of single family homes on lots ranging from 1-3 acres in size. There are 22 roads within the area which exhibit a number of irregularities and deficiencies due to age.

Although property owner's rights extend to the centerline of the roadway, the community has no homeowners association. Efforts to organize the area to complete the needed roadway work, to date, have failed. The City is requested funding to restore the existing 18' wide rural roadway (no roadway widening is planned). Many of the roadways in this area are "dead end" with alternative access for emergency vehicles.

Upon completion of the badly needed resurfacing, the City will provide for future maintenance. Successful completion of this project will ensure safe roadways as well as assuring future maintenance. The City will fund any remaining balance.

8. Provide the total cost of the project for FY 2016-17 from all sources of funding:

- Federal: 0
- State: 6,200,000 (Excluding the requested Total Amount in #4d, Column G)
- Local: 0
- Other: 0

9. Is this a multi-year project requiring funding from the state for more than one year?

No
