7. Write a project description that will serve as a stand-alone summary of the project for legislative review. The description should summarize the entire project's intended purpose, the purpose of the funds requested (if request is a sub-part of the entire project), and most importantly the detail on how the funds requested will be spent - for example how much will be spent on positions and associated salaries, specifics on capital costs, and detail of operational expenses. The summary must list what local, regional or statewide interests or areas are served. It should also document the need for the funds, the community support and expected results when applicable. Be sure to include the type and amount of services as well as the number of the specific target population that will be served (such as number of home health visits to X, # of elderly, # of school aged children to receive mentoring, # of violent crime victims to receive once a week counseling etc.)

This project consists of the preparation of active retention ponds for redevelopment. The process includes the installation of a single precast concrete modular storm water management system. This system will allow for the ponds to be retrofitted with the concrete modular which will retain and clean the storm water and allow the area to be covered for the use of building a structure in the footprint of an area where the pond exists. Upon development of the retention ponds the areas will be viable and sustainable to create jobs, and increase property values while maintaining clean water in the precast structure. We anticipate that this redevelopment project will spur job creation within this at-risk, underserved community that has been plague with slum and blight. These jobs will vary from permanent, skilled and unskilled, etc. The proposed areas are low-income residents. Moreover, this project will improve water quality and reduce propensity for flooding (Canal C9). The residents, businesses and elected officials are in support of this project and the potential that it has to spur development (state, county and city).

8. Provide the total cost of the project for FY 2016-17 from all sources of funding:

Federal: 0

State: 0 (Excluding the requested Total Amount in #4d, Column G)

Local: 50,000

Other: 0

9. Is this a multi-year project requiring funding from the state for more than one year?

No
