7. Write a project description that will serve as a stand-alone summary of the project for legislative review. The description should summarize the entire project's intended purpose, the purpose of the funds requested (if request is a sub-part of the entire project), and most importantly the detail on how the funds requested will be spent - for example how much will be spent on positions and associated salaries, specifics on capital costs, and detail of operational expenses. The summary must list what local, regional or statewide interests or areas are served. It should also document the need for the funds, the community support and expected results when applicable. Be sure to include the type and amount of services as well as the number of the specific target population that will be served (such as number of home health visits to X, # of elderly, # of school aged children to receive mentoring, # of violent crime victims to receive once a week counseling etc.)

The STEM Stackable Credentials Initiative aligns career academy tracks with college degrees. PHSC's Board of Trustees has already approved Associate of Science degrees in Professional Pilot Technology and Aviation Administration. They are currently awaiting Southern Association of Colleges and Schools (SACS) accreditation for these degree programs. Finally, PHSC will adopt Associate of Science degrees in Aviation Maintenance and Unmanned Vehicle Systems Operations, and present them to both their board of trustees and SACS for approval. Programs not currently available at either PHSC or PCS will be pursued through partnerships with neighboring school districts, colleges and universities until the programs are developed and approved by PHSC and PCS. PHSC and PCS will focus these stackable credentials, initially, in the following areas:

- ? Airport Management
- ? Aircraft Maintenance
- ? Pilot Operations
- ? Unmanned Aircraft Systems
- ? Cyber/IT Security

The STEM Stackable Credentials Initiative will be created in a scalable manner that can be expanded to connect more career academies with college degrees. The initiative will be enhanced through PHSC's literacy and leadership development initiatives. The program will be targeted to provide these services for a

projected 250 students and jointly administered by PHSC and PCS with training provided, as appropriate, with the guidance of advisors and counselors at both entities.
