The description should summarize the entire project's intended purpose, the purpose of the funds requested (if request is a sub-part of the entire project), and most importantly the detail on how the funds requested will be spent - for example how much will be spent on positions and associated salaries, specifics on capital costs, and detail of operational expenses. The summary must list what local, regional or statewide interests or areas are served. It should also document the need for the funds, the community support and expected results when applicable. Be sure to include the type and amount of services as well as the number of the specific target population that will be served (such as number of home health visits to X, # of elderly, # of school aged children to receive mentoring, # of violent crime victims to receive once a week counseling etc.)

All funds will be spent to upgrade camera and monitoring stations including additional cameras. New equipment and upgrades will deter crime and greatly support police in the ID of people committing crimes in these areas. The newer resolutions on the cameras have improved significantly and will give us better results. We will also have much better resolution when the lighting is reduced when much of the crime takes place.
