7. Write a project description that will serve as a stand-alone summary of the project for legislative review. The description should summarize the entire project's intended purpose, the purpose of the funds requested (if request is a sub-part of the entire project), and most importantly the detail on how the funds requested will be spent - for example how much will be spent on positions and associated salaries, specifics on capital costs, and detail of operational expenses. The summary must list what local, regional or statewide interests or areas are served. It should also document the need for the funds, the community support and expected results when applicable. Be sure to include the type and amount of services as well as the number of the specific target population that will be served (such as number of home health visits to X, # of elderly, # of school aged children to receive mentoring, # of violent crime victims to receive once a week counseling etc.)

The Sowder Building was the first Public Health office in Florida. The Historic Building is a hidden treasure just blocks from Downtown Jacksonville. When the building is restored, it will serve as a Historic Landmark, a museum of Public Health, an operations center for public health non-profit organizations, and a public meeting space with an emphasis on public health improvement. The building needs restoration in order to be usable. Operations of the museum and building utilities will be the responsibility of the Duval County Medical Society Foundation. Florida Department of Health will be responsible for building maintenance.

Within a year of completion of the restoration, the goal is to lead a public health initiative in conjunction with the Florida Department of Health in Duval to become the first city in Florida to lose one-million pounds. Public events, seminars, and training sessions held at the building would hopefully attract 5,000 people in the first year. A partnership with Duval County Public Schools and the University of North Florida would allow thousands of students to learn about the important role of public health in making Florida the state it is today.

8. Provide the total cost of the project for FY 2016-17 from all sources of funding:

- Federal: 0
- State: 0 (Excluding the requested Total Amount in #4d, Column G)
- Local: 0
- Other: 0

9. Is this a multi-year project requiring funding from the state for more than one year?

Yes
