The summary must list what local, regional or statewide interests or areas are served. It should also document the need for the funds, the community support and expected results when applicable. The LSC houses TCC's men's and women's basketball teams, athletics and recreational sports administrative offices, the campus fitness center, weight and training rooms for athletics and classrooms. The original roof's expected life was 20 years (installed 1982). Roof is now 33 years old and creating safety and energy cost concerns. The new roof avoids catastrophic failure and subsequent building replacement; enhances energy efficiency and reduces costs; improves building safety. Florida colleges serve both a local and state wide interest by providing a post-secondary academic and workforce resource for Florida's citizens. Cost to replace roof is less than 60% of the cost to replace the Complex; energy savings can be documented; possible loss of life cannot be calculate. Design will cost \$874 k, and Construction \$6.726 million.

- Other: 0
