7. Write a project description that will serve as a stand-alone summary of the project for legislative review. The description should summarize the entire project's intended purpose, the purpose of the funds requested (if request is a sub-part of the entire project), and most importantly the detail on how the funds requested will be spent - for example how much will be spent on positions and associated salaries, specifics on capital costs, and detail of operational expenses. The summary must list what local, regional or statewide interests or areas are served. It should also document the need for the funds, the community support and expected results when applicable. Be sure to include the type and amount of services as well as the number of the specific target population that will be served (such as number of home health visits to X, # of elderly, # of school aged children to receive mentoring, # of violent crime victims to receive once a week counseling etc.)

The funding would go towards the TFLA summer jobs program, and would be used for salary for 285 students; payroll taxes; transportation; training for students; administration; background checks; staff services and resources; miscellaneous costs (t-shirts, foods, supplies. Expected benefits include increased skills for nearly 300 students, for many of whom TFLA is their first job. The funding will allow us to greatly expand the summer jobs program to allow students an opportunity to experience what a future in a professional setting can be, and offers them the opportunity to gain important skills and training. Additionally, summer jobs programs have been shown to significantly reduce violent crimes, and literally save lives. We are hopeful that TFLA will have a long-term impact on the violent crime rate in Tallahassee; and in the short-term reduce the youth crime rate, especially in the summer months when the program is active. The student participants will certainly benefit from gaining skills and training, and also from having a meaningful work experience. The greater Tallahassee area will benefit from having a large crop of talented youngsters who understand that they have a bright future ahead of them. They represented a better trained workforce; which will, in turn, lead to economic growth for area businesses.

8. Provide the total cost of the project for FY 2016-17 from all sources of funding:

- Federal: 0
- State: 0 (Excluding the requested Total Amount in #4d, Column G)
- Local: 0
- Other: 0

9. Is this a multi-year project requiring funding from the state for more than one year?

No
