7. Write a project description that will serve as a stand-alone summary of the project for legislative review. The description should summarize the entire project's intended purpose, the purpose of the funds requested (if request is a sub-part of the entire project), and most importantly the detail on how the funds requested will be spent - for example how much will be spent on positions and associated salaries, specifics on capital costs, and detail of operational expenses. The summary must list what local, regional or statewide interests or areas are served. It should also document the need for the funds, the community support and expected results when applicable. Be sure to include the type and amount of services as well as the number of the specific target population that will be served (such as number of home health visits to X, # of elderly, # of school aged children to receive mentoring, # of violent crime victims to receive once a week counseling etc.)

The proposed project will include research laboratories, classroom, and student study spaces. This two-phase new construction annex comprising 50,811 gross square feet (gsf) including 1,200 gsf for a chiller room, will be located and connected to existing Building, 58, occupied since 1972. The existing buildings do not provide adequately safe and appropriate research and laboratory space. There are currently 1,114 students enrolled in the degree programs of Biology, Marine Biology, Chemistry, and Clinical Sciences that heavily utilize the labs in this building. Also, more than 4,500 undergraduate and graduate students throughout the entire university are enrolled in classes utilizing these labs. The Laboratory Science Annex will assist UWF to meet the following goals and metrics: (1) BOG Strategic Plan: by increasing the number of STEM degrees, increasing research activity and external support, and strengthening quality and reputation of STEM research. (2) SUS Key Performance Indicators and Metrics: by reducing average time to degree and increasing percent of undergraduate seniors participating in a research course. (3) UWF Strategic and Improvement Plan Goals: by increasing 6 year graduation rates, enhancing student access, progression, and learning and development, and providing distinctive teaching, scholarship, research and professional contributions.

8. Provide the total cost of the project for FY 2016-17 from all sources of funding:

- Federal: 0
- State: 0 (Excluding the requested Total Amount in #4d, Column G)
- Local: 0
- Other: 0

9. Is this a multi-year project requiring funding from the state for more than one year?

Yes
