7. Write a project description that will serve as a stand-alone summary of the project for legislative review. The description should summarize the entire project's intended purpose, the purpose of the funds requested (if request is a sub-part of the entire project), and most importantly the detail on how the funds requested will be spent - for example how much will be spent on positions and associated salaries, specifics on capital costs, and detail of operational expenses. The summary must list what local, regional or statewide interests or areas are served. It should also document the need for the funds, the community support and expected results when applicable. Be sure to include the type and amount of services as well as the number of the specific target population that will be served (such as number of home health visits to X, # of elderly, # of school aged children to receive mentoring, # of violent crime victims to receive once a week counseling etc.)

This project addresses roadway and drainage deficiencies adjacent to an elementary school.

Vermont Street from Calhoun Street south to Baker Street (US 92) is a heavily traveled street that services Jackson Elementary School. The school's bus drop-off area is located on Vermont Street just south of Tomlin Street. Due to the inadequate stormwater drainage system, the roadway has become badly deteriorated, is heavily patched, and floods during storm events. Children have to cross through the flooded street to get to school and residences located on the street have their yards impacted by the flooding.

Plans are near completion and are expected to be completed within the next few months, meaning that this project would be shovel-ready upon receipt of the requested funding.

8. Provide the total cost of the project for FY 2016-17 from all sources of funding:

- Federal: 0
- State: 0 (Excluding the requested Total Amount in #4d, Column G)
- Local: 0
- Other: 0

9. Is this a multi-year project requiring funding from the state for more than one year?

No
