11. What is the specific purpose or goal that will be achieved by the funds being requested?

Margate's stormwater pipe infrastructure is at or beyond it's useful lifespan. Continuous issues include collapses, sinkholes, and depressions in roadways caused by perforations in the pipes and interruptions in the drainage of roadways due to pipe blockages related to failures of the pipe metal. By lining or replacing pipes, the City will be improving the stormwater infrastructure for the next 50 years, resulting in a decreased flooding risk, sinkholes, road depressions, and drainage blocks.

12. Provide specific details on how funds will be spent. (Select all that apply)
