**SUMMARY ANALYSIS**

PCS/HB 41 is the Florida Ban on Texting While Driving Law, modeled after a Sample Law recently promulgated by the United State Department of Transportation. The bill prohibits the operation of a motor vehicle while manually typing or entering multiple letters, numbers, symbols, or other text in a wireless communication device, or sending or reading data in the device, for the purpose of non-voice interpersonal communication. The bill makes exceptions for emergency workers, reporting emergencies or suspicious activities, and for receiving various types of navigation information, emergency traffic data, and radio broadcasts. The bill also makes an exception for interpersonal communications that can be conducted without the need to manually type messages.

The prohibition is enforceable as a secondary offense. A first violation is punishable as a nonmoving violation, with a fine of \$30 plus court costs which vary by county; the total fine plus court costs and fees ranges from \$78 to \$129. A second violation committed within 5 years of the first is a moving violation punishable by a \$60 fine plus court costs, resulting in a total fine and costs of \$128 to \$179.

In addition to these penalties, any violation of the ban which results in a crash will result in 6 points added to the offender's driver's license record.

The bill has an effective date of October 1, 2010.

## HOUSE PRINCIPLES

Members are encouraged to evaluate proposed legislation in light of the following guiding principles of the House of Representatives

- Balance the state budget.
- Create a legal and regulatory environment that fosters economic growth and job creation.
- Lower the tax burden on families and businesses.
- Reverse or restrain the growth of government.
- Promote public safety.
- Promote educational accountability, excellence, and choice.
- Foster respect for the family and for innocent human life.
- Protect Florida's natural beauty.

### I. SUBSTANTIVE ANALYSIS

#### A. EFFECT OF PROPOSED CHANGES:

##### Current Situation

The state has expressly preempted all regulation of the use of electronic communications devices in a motor vehicle.<sup>1</sup> It is a violation of current state law to operate a motor vehicle while wearing a headset, headphone, or other listening device other than a hearing aid;<sup>2</sup> such violations are noncriminal traffic infractions punishable as nonmoving violations. Section 318.18(2), F.S., provides that a non-moving violation requires a \$30 fine (plus court costs which vary by county; the total fine plus court costs and fees for a non-moving violation could range from \$78 to \$129).

Exceptions to the prohibition against headsets are made for law enforcement radio equipment,<sup>3</sup> certain headsets built into motorcycle helmets,<sup>4</sup> and cellular phone or other radio headsets used in only one ear.<sup>5</sup> The Department of Highway Safety and Motor Vehicles is granted rulemaking authority to further detail the standards and specifications of radio equipment permitted by statute.<sup>6</sup>

Section 322.27(3), F.S., provides a point system used to evaluate the qualification of any person to operate a motor vehicle after accumulating multiple violations of motor vehicle laws. Moving violations typically result in assessment of three points, unless the infraction or offense is among those considered more serious. For example, pursuant to section 322.27(3)(d), F.S., reckless driving, passing a stopped school bus, and speeding in excess of 15 mph over the posted limit all require assessment of four points. Leaving the scene of a crash and speeding resulting in a crash require assessment of six points.

The Department may suspend a driver for 30 days if the driver accumulates 12 or more points within a 12-month period,<sup>7</sup> up to three months if the driver accumulates 18 points in 18 months,<sup>8</sup> and up to one year if the driver accumulates 24 points within 36 months.<sup>9</sup>

<sup>9</sup> Section 322.27(3)(c), F.S.

The United States Department of Transportation (USDOT) has recently issued a "Sample Law" to prohibit texting while driving.<sup>10</sup> Recognizing that states have had some difficulty drafting language that prohibits dangerous behaviors but allows certain minimal uses of technology, the USDOT requested the participation of several national groups to draft language satisfactory to all. Contributors to the Sample Law include: Advocates for Highway and Auto Safety, Alliance of Automobile Manufacturers, American Association of Motor Vehicle Administrators, American Association of State Highway and Transportation Officials, AAA, Centers for Disease Control and Prevention, CTIA- The Wireless Association, Governors Highway Safety Association, ITS America, International Association of Chiefs of Police, National Conference of State Legislatures, National Safety Council, The National Traffic Law Center of the National District Attorneys Association, and Safe Kids USA.

In its message accompanying the text of the Sample Law, the USDOT states that "[w]hile there are many sources of driver distraction...the act of composing, sending or reading text messages interrupts drivers' cognitive attention, causes vision to be directed away from the road, and compromises manual control of the vehicle." The letter concludes by noting that texting prohibition laws:

are relatively new and have not been thoroughly evaluated. However... safety advocates and state legislatures are compelled to move forward, basing texting legislation on the broad foundation of principles learned from seat belt laws, impaired driving statutes, and similar legislative initiatives.... This sample law reflects current circumstances and state of knowledge, but may be revised in the future to incorporate new research findings, address evolving technologies, or to harmonize with other legislation.

Nineteen states and the District of Columbia have passed a ban on text-while-driving for all drivers. The National Conference of State Legislators has the following chart detailing each state's cell-phone use laws.<sup>11</sup>

### Proposed Changes

PCS/HB 41 draws heavily on the Sample Law promulgated by the USDOT, particularly with regard to the express legislative intent and the prohibition itself. The penalties are modified somewhat to provide a graduated approach and to better integrate with existing Florida Statutes.

### *Specific Intent*

PCS/HB 41 prohibits any driver from operating a motor vehicle while using a wireless communication device. The bill's specific intention is to

- Improve roadway safety for motor vehicle operators, passengers, bicyclists, pedestrians and all other road users;
- Prevent crashes related to the act of text messaging;
- Reduce injuries, death, property damage, health care costs, health insurance, and automobile insurance rates related to motor vehicle crashes; and
- Authorize law enforcement officers to issue citations for text messaging as a secondary offense.

### *Prohibition on Texting While Driving*

To achieve these goals, the bill prohibits the operation of a motor vehicle "while manually typing or entering multiple letters, numbers, symbols, or other text in a wireless communication device, or sending or reading data in the device, for the purpose of non-voice interpersonal communication."

The bill defines "wireless communication device" as *any* device designed or intended to receive or transmit written messages, access or store data, or connect electronically to the Internet or any other communications service<sup>12</sup> and which allows text communications. The bill also specifies that for purposes of the prohibition on texting, a person is *not* operating a vehicle when legally parked.

<sup>12</sup> "Communications service" itself is defined by reference to s. 812.15, F.S. In that statute, "communications service" means: any service lawfully provided for a charge or compensation by any cable system or by any radio, fiber optic, photooptical, electromagnetic, photoelectronic, satellite, microwave, data transmission, Internet-based, or wireless distribution network, system, or facility, including, but not limited to, any electronic, data, video,

## Exceptions

The bill makes exceptions for:

- Law enforcement, fire service, or emergency medical services personnel performing official duties;
- Reporting an emergency, or criminal or suspicious activity;
- Receiving messages related to:
  - The operation or navigation of a motor vehicle;
  - Safety-related information including emergency, traffic, or weather alerts;
  - Data used primarily by the motor vehicle; or
  - Radio broadcasts;
- Using a device or system for navigation purposes; or
- Conducting wireless interpersonal communication that does *not* require manual entry of multiple letters, numbers, or symbols, or reading text messages (except to activate or deactivate a feature or function).

## Penalties

A penalty for a first violation of the prohibition is a non-moving violation, punishable as provided in Ch. 318. Without a specified alternative amount, non-moving violations result in a \$30 fine, plus court costs which vary by jurisdiction. The total fine, plus court costs and fees, could range from \$78 to \$129.

If a person commits a second violation of the prohibition within 5 years of the first violation, the penalty is increased to a moving violation. Chapter 318 provides a \$60 fine plus court costs, resulting in a total fine and costs of \$128 to \$179, depending on jurisdiction.

With regard to the 'repeat offense' portion of the penalty, it is worth noting that s. 318.14(9), F.S., permits a person to avoid a conviction for most traffic violations by attending a basic driver improvement course.<sup>13</sup> A violator may only make this election once in a 12-month period, and not more than 5 times in a 10 year period. In the event that a person is stopped by a law enforcement officer, receives a traffic citation for a primary offense, and receives a citation for texting while driving as a secondary offense, it is conceivable that the person could elect to use the driver improvement course to avoid a 'conviction' for texting while driving (either on a first or subsequent violation of the texting ban). On the other hand, many primary offenses add points to a driver's license so the driver would presumably elect to apply the driver improvement course to the primary citation and avoid the more immediate point penalty. A driver with frequent traffic offenses is not likely to encounter this scenario, as he or she has likely exhausted the available driver improvement course elections available under s. 318.14(9), F.S.

The bill provides that the Department of Highway Safety and Motor Vehicles will assign 6 points to the driver's license of any driver whose use of a wireless communications device results in a crash (regardless of whether the offense is a first or subsequent offense). This is identical to the number of points that would apply to a driver's license when the operator caused a crash as a result of unlawful speed.

## B. SECTION DIRECTORY:

Section 1      Creates s. 316.305, F.S.; prohibiting the use of wireless communications devices by motor vehicle operators; providing exceptions; providing penalties.

---

audio, Internet access, microwave, and radio communications, transmissions, signals, and services, and any such communications, transmissions, signals, and services lawfully provided for a charge or compensation, directly or indirectly by or through any of those networks, systems, or facilities.

<sup>13</sup> The election is not available for speeding offenses, vehicle registration requirements, and driver's license requirements, nor is the election available for holders of commercial driver's licenses.

Section 2 Amends s. 322.27, F.S.; providing for driver's license points for unlawful use of a wireless communications device resulting in a crash.

Section 3 Provides an effective date of October 1, 2009.

## II. FISCAL ANALYSIS & ECONOMIC IMPACT STATEMENT

### A. FISCAL IMPACT ON STATE GOVERNMENT:

1. Revenues:

See Fiscal Comments, below.

2. Expenditures:

None.

### B. FISCAL IMPACT ON LOCAL GOVERNMENTS:

1. Revenues:

See Fiscal Comments, below.

2. Expenditures:

None.

### C. DIRECT ECONOMIC IMPACT ON PRIVATE SECTOR:

An individual violating the prohibition would be subject to a civil penalty of \$78 to \$179, depending on the jurisdiction's court costs, and whether the violation is a first offense or a second or subsequent offense.

### D. FISCAL COMMENTS:

The bill may generate an indeterminate amount of revenue for both state and local law enforcement agencies, depending on the number of secondary violations issued by law enforcement officials, and the frequency with which violators commit subsequent violations, incurring large penalties.

## III. COMMENTS

### A. CONSTITUTIONAL ISSUES:

1. Applicability of Municipality/County Mandates Provision:

Not applicable because the bill does not appear to: require counties or cities to spend funds or take action requiring the expenditure of funds; reduce the authority that cities or counties have to raise revenues in the aggregate; or reduce the percentage of a state tax shared with cities or counties.

2. Other:

None.

### B. RULE-MAKING AUTHORITY:

None.

### C. DRAFTING ISSUES OR OTHER COMMENTS:

12

13 Section 1. Section 316.305, Florida Statutes, is created  
 14 to read:

15 316.305 Wireless communications devices; prohibition.-

16 (1) This section may be cited as the "Florida Ban on  
 17 Texting While Driving Law."

18 (2) It is the intent of the Legislature to:

19 (a) Improve roadway safety for all vehicle operators,  
 20 passengers, bicyclists, pedestrians, and other road users.

21 (b) Prevent crashes related to the act of text messaging  
 22 while driving a motor vehicle.

23 (c) Reduce injuries, death, property damage, health care  
 24 costs, health insurance, and automobile insurance rates related  
 25 to motor vehicle crashes.

26 (d) Authorize law enforcement officers to stop vehicles  
 27 and issue citations to persons texting while driving as a  
 28 secondary offense.

29           (3) (a) A person shall not operate a motor vehicle while  
 30 manually typing or entering multiple letters, numbers, symbols,  
 31 or other characters in a wireless communications device or  
 32 sending or reading data in such a device for the purpose of  
 33 nonvoice interpersonal communication, including, but not limited  
 34 to, communication methods known as texting, e-mailing, and  
 35 instant messaging. As used in this section, the term "wireless  
 36 communications device" means any device designed or intended to  
 37 receive or transmit text or character-based messages, access or  
 38 store data, or connect to the Internet or any communications  
 39 service as defined in s. 812.15 and which allows text  
 40 communications. For purposes of this section, a motor vehicle  
 41 that is legally parked is not being operated and is not subject  
 42 to the prohibition of this paragraph.

43           (b) This subsection does not apply to a motor vehicle  
 44 operator who is:

45           1. A law enforcement, fire service, or emergency medical  
 46 services professional performing official duties.

47           2. Reporting an emergency or criminal or suspicious  
 48 activity to law enforcement authorities.

49           3. Receiving messages that are:

50           a. Related to the operation or navigation of the motor  
 51 vehicle;

52           b. Safety-related information including emergency,  
 53 traffic, or weather alerts;

54           c. Data used primarily by the motor vehicle; or

55           d. Radio broadcasts.

56           4. Using a device or system for navigation purposes.

57 5. Conducting wireless interpersonal communication that  
 58 does not require manual entry of multiple letters, numbers, or  
 59 symbols or reading text messages, except to activate,  
 60 deactivate, or initiate a feature or function.

61 (c) A user's billing records for a wireless communications  
 62 device or the testimony or written statements from appropriate  
 63 authorities receiving such messages may be admissible as  
 64 evidence in any proceeding to determine whether an infraction of  
 65 this section has been committed.

66 (4) (a) Any person who violates subsection (3) commits a  
 67 noncriminal traffic infraction, punishable as a nonmoving  
 68 violation as provided in chapter 318.

69 (b) Any person who commits a second or subsequent  
 70 violation of subsection (3) within 5 years after the date of a  
 71 prior conviction for a violation of subsection (3) commits a  
 72 noncriminal traffic infraction, punishable as a moving violation  
 73 as provided in chapter 318.

74 (4) Enforcement of this section by state or local law  
 75 enforcement agencies must be accomplished only as a secondary  
 76 action when a driver of a motor vehicle has been detained for a  
 77 suspected violation of another section of this chapter, chapter  
 78 320, or chapter 322.

79 Section 2. Paragraph (d) of subsection (3) of section  
 80 322.27, Florida Statutes, is amended to read:

81 322.27 Authority of department to suspend or revoke

 88 operate a motor vehicle. The department is authorized to suspend  
 89 the license of any person upon showing of its records or other  
 90 good and sufficient evidence that the licensee has been  
 91 convicted of violation of motor vehicle laws or ordinances, or  
 92 applicable provisions of s. 403.413(6)(b), amounting to 12 or  
 93 more points as determined by the point system. The suspension  
 94 shall be for a period of not more than 1 year.

95 (d) The point system shall have as its basic element a  
 96 graduated scale of points assigning relative values to  
 97 convictions of the following violations:

- 98 1. Reckless driving, willful and wanton—4 points.
- 99 2. Leaving the scene of a crash resulting in property

##### Current Situation

##### Background

##### *Adult Protective Investigations*

The Adult Protective Services Program, authorized by Ch. 415, F.S., and managed by the Department of Children and Family Services (DCF), is a system of social services that protects disabled or elderly persons from occurrences of abuse, neglect, and exploitation. Upon report of alleged abuse, neglect, or exploitation, an assessment of an individual's need for protective services is initiated.

The program consists of four components:

- The on-site investigation;
- Emergency services if determined necessary;
- Referral to the local law enforcement, if appropriate; and
- Referral to local social service agencies for any identified needs.<sup>1</sup>

The Florida Abuse Hotline accepts reports related to vulnerable adults who are residents of Florida or currently located in Florida, and are:

- Believed to have been neglected or abused by a caregiver in Florida;
- Suffering from the ill effects of neglect and in need of services; or
- Being exploited by any person who stands in a position of trust or confidence, or any person who knows or should know that a vulnerable adult lacks capacity to consent and who obtains or uses, or endeavors to obtain or use their funds, assets or property.<sup>2</sup>

When a report is determined by a hotline counselor to require an immediate onsite protective investigation, the hotline counselor must immediately notify the DCF's designated district staff responsible for protective investigations. A non-emergency report that is received by the hotline

counselor is forwarded to the appropriate district staff in sufficient time so that an investigation occurs within 24 hours.<sup>3</sup>

When a report is called into the Florida Abuse hotline, a protective investigation is initiated, which includes observation, interviews with the victim and witnesses, evidence gathering and collateral contacts.<sup>4</sup> Sometimes during an investigation, abused, neglected, or exploited adults are identified, but lack the capacity to consent to protective services. Additionally DCF reports that during some adult protective investigations, the subject of the investigation denies his or her identity, eluding the investigators.<sup>5</sup>

### *Public Assistance*

Public assistance includes benefits paid to individuals through temporary cash assistance, food stamps, Medicaid or optional state supplemental programs.<sup>6</sup>

### *Driver's Licenses and Identification Cards*

Applicants for driver's licenses are required by the Department of Highway Safety and Motor Vehicles (DHSMV) to provide proof of a social security card and proof of identity by showing documents including proof of citizenship and lawful non-citizenship status.<sup>7</sup> Identical requirements exist in law for state issued identification cards.<sup>8</sup> Upon receipt of the required fee, DHSMV issues to driver's license and identification card applicants, a color photographic or digital imaged driver's license bearing a full-face photograph or digital image of the licensee.<sup>9</sup>

### *Temporary Cash Assistance*

Under state law, temporary cash assistance applicants must be United States citizens, qualified noncitizens, legal residents of the state, and be able to provide a social security number for each member of the family or show proof of application for one.<sup>10</sup> The Department of Children and Family Services (DCF) conducts eligibility for and administers the temporary cash assistance program under Title IV-A of the Social Security Act.<sup>11,12</sup>

### *Medicaid*

Both federal and state law require applicants for Medicaid services to show proof of identity and be United States citizens, or qualified non-citizens and legal residents of Florida.<sup>13,14</sup> Additionally, federal law classifies a valid state-issued driver's license as satisfactory documentary evidence of both identity and citizenship, as long as the state issuing the license requires proof of U.S. citizenship or obtains a social security number from the applicant.<sup>15</sup> Since the applications require proof of a social security card, a valid Florida driver's license or state-issued identification card is permitted to receive Medicaid

### *Supplemental Nutrition Assistance Program (SNAP)*

Under state law, food stamps, or SNAP applicants must be United States citizens, qualified noncitizens, legal residents of the state, and be able to provide a social security number for each member of the family or show proof of application for one.<sup>17</sup> Federal law permits both United States citizens and lawful aliens to receive benefits of SNAP.<sup>18</sup> Specifically, the Code of Federal Regulations requires verification of an applicant's identity by any document which reasonably establishes identity. Driver's licenses or state issued identification cards are reasonable documents under the Code.<sup>19</sup> DCF is the designated department responsible for administering and operating the federally authorized SNAP program.<sup>20</sup>

### *Fraud*

Section 414.39(10), F.S., requires DCF to screen applicants for public assistance, including Medicaid, food stamps, and temporary cash assistance, against a fraud-prone case profile to identify cases for fraud. Additionally the Attorney General conducts a statewide program of Medicaid fraud control, which investigates both Medicaid provider and user fraud.<sup>21</sup>

### *Department of Highway and Safety Motor Vehicles (DHSMV) Database*

The DHSMV is permitted, pursuant to interagency agreements, to share information from its database, including digital images and signatures, in the following circumstances:<sup>22</sup>

- In response to law enforcement agency requests;
- With the Department of State to determine voter registration eligibility;
- With the Department of Revenue for use in establishing paternity and establishing, modifying, or enforcing support obligations;
- With the Department of Children and Families to conduct protective investigations under part III of chapter 39, and
- With the Department of Financial Services relating to unclaimed property.

Under current law, DCF is not permitted to access the DHSMV database relating to protective investigations regarding vulnerable adults. Additionally, DCF is not permitted access to verify identification and citizenship of Medicaid and SNAP applicants, resulting in a delay or lack of receipt of services.<sup>23</sup>

### **Effect of Proposed Changes**

The bill will permit a specified number of DCF employees to access the DHSMV database to conduct protective investigations under chapter 415, F.S., relating to adult protective services. Access to this system should assist investigators in the positive identification of victims and responsible persons who are subjects in investigations of abuse, neglect, or exploitation and provide quick access to the location of such persons, including vulnerable adults.

The bill will also permit, pursuant to an interagency agreement, a specified number of DCF employees to access the DHSMV database for use as verification of identity to expedite the determination of

On February 2, 2010, the Health Care Services Policy Committee adopted 2 amendments. The first amendment adopted was an amendment to the amendment. It amended s. 322.142, F.S., to allow DCF to access image and signature data of the DHSMV to conduct protective investigations pursuant to chapter 415, F.S., relating to adult protective services.

The second amendment adopted was an amendment to the bill. Not only did it contain the language in the amendment to the amendment, it also contained language that permits a specified number of DCF employees to access the DHSMV database for use as verification of identity to expedite the determination of eligibility for public assistance and for use in public assistance fraud investigations. This amendment provides sufficient access control over digital images and allows implementation without a fiscal impact.

Table with 4 columns: REFERENCE, ACTION, ANALYST, STAFF DIRECTOR. Row 1: Roads, Bridges & Ports Policy Committee, Johnson, Miller. Row 2: Economic Development & Community Affairs Policy Council.

SUMMARY ANALYSIS

Section 334.071, F.S., provides for legislative designations of transportation facilities for honorary or memorial purposes, or to distinguish a particular facility. The legislative designations do not "officially" change the current names of the facilities, nor does the statute require local governments and private entities to change street signs, mailing addresses, or 911 emergency telephone-number system listings.

The bill designates the ramp connecting northbound Florida Turnpike to northbound Interstate 75 in Miami-Dade County as the "Andrew J. Capeletti Bridge."

The bill designates W. 20th Avenue in the City of Hialeah between W. 44th Street and Okeechobee Road in Miami-Dade County as "Jose Reguiero Avenue."

The bill also directs DOT to erect suitable markers designating the "Andrew J. Capeletti Bridge" and "Jose Reguiero Avenue."

DOT estimates that the cost to erect four suitable road designating markers is approximately \$1,600; this assumes the placement of a marker at each end of each designated road segment. The expenditure is from the State Transportation Trust Fund and includes installation and maintenance costs.

The bill does not create any constitutional or other legal issues. It takes effect July 1, 2010.

## HOUSE PRINCIPLES

Members are encouraged to evaluate proposed legislation in light of the following guiding principles of the House of Representatives

- Balance the state budget.
- Create a legal and regulatory environment that fosters economic growth and job creation.
- Lower the tax burden on families and businesses.
- Reverse or restrain the growth of government.
- Promote public safety.
- Promote educational accountability, excellence, and choice.
- Foster respect for the family and for innocent human life.
- Protect Florida's natural beauty.

#### A. EFFECT OF PROPOSED CHANGES:

##### Current Situation

Section 334.071, F.S., provides for legislative designations of transportation facilities for honorary or memorial purposes, or to distinguish a particular facility. The legislative designations do not "officially" change the current names of the facilities, nor does the statute require local governments and private entities to change street signs, mailing addresses, or 911 emergency telephone-number system listings.

The statute requires the Department of Transportation (DOT) to place a marker at each termini or intersection of an identified road or bridge, and to erect other markers it deems appropriate for the transportation facility. The statute also provides that a city or county must pass a resolution in support of a particular designation before road markers are erected. Additionally, if the designated road segment extends through multiple cities or counties, a resolution must be passed by each affected local government.

##### Effect of Proposed Change

The bill designates the ramp connecting northbound Florida Turnpike to northbound Interstate 75 in Miami-Dade County as the "Andrew J. Capeletti Bridge."

The bill designates W. 20<sup>th</sup> Avenue in the City of Hialeah between W. 44<sup>th</sup> Street and Okeechobee Road in Miami-Dade County as "Jose Reguiero Avenue."

The bill also directs DOT to erect suitable markers designating the "Andrew J. Capeletti Bridge" and "Jose Reguiero Avenue."

The bill takes effect on July 1, 2010.

#### B. SECTION DIRECTORY:

### C. DRAFTING ISSUES OR OTHER COMMENTS:

According to DOT, the ramp for the "Andrew J. Capeletti Memorial Bridge" is a ramp that has a bridge on it. Additionally, the ramp goes between the Homestead Extension of Florida's Turnpike and Interstate 75.

According to DOT, for the "Jose Regueiro Avenue" designation, 20<sup>th</sup> Avenue does not cross 44<sup>th</sup> Street, but crosses 44<sup>th</sup> Place.

According to information provided by the sponsor, Andrew J. Capeletti was a road builder and founder of Capeletti, Bros., Inc. Jose Reguerio was the founder of Florida National College.

SUMMARY ANALYSIS

In 2003, the Strategic Intermodal System was established to serve the state's mobility needs, help the state become a worldwide economic leader, enhance economic prosperity and competitiveness, enrich quality of life and reflect responsible environmental stewardship. The 2003 law also created a Statewide Intermodal Transportation Advisory Council to advise and make recommendations to the Legislature and DOT on the policies, planning, and funding of intermodal transportation projects. The members of the council are appointed by the Governor, the President of the Senate, and the Speaker of the House of Representatives, and represent various interests involved in the Strategic Intermodal System.

The council is no longer active, and held its last meeting in December 2004.

The bill eliminates the Statewide Intermodal Transportation Advisory Council.

The bill does not have a fiscal impact.

The bill has an effective date of July 1, 2010.

## HOUSE PRINCIPLES

Members are encouraged to evaluate proposed legislation in light of the following guiding principles of the House of Representatives

- Balance the state budget.
- Create a legal and regulatory environment that fosters economic growth and job creation.
- Lower the tax burden on families and businesses.
- Reverse or restrain the growth of government.
- Promote public safety.
- Promote educational accountability, excellence, and choice.
- Foster respect for the family and for innocent human life.
- Protect Florida's natural beauty.

#### A. EFFECT OF PROPOSED CHANGES:

##### Current Situation

In 2003, the Strategic Intermodal System was established to serve the state's mobility needs, help the state become a worldwide economic leader, enhance economic prosperity and competitiveness, enrich quality of life and reflect responsible environmental stewardship.<sup>1</sup> The 2003 law also created a Statewide Intermodal Transportation Advisory Council to advise and make recommendations to the Legislature and DOT on the policies, planning, and funding of intermodal transportation projects. These responsibilities include:

- Advising DOT on the policies, planning, and implementation strategies related to intermodal transportation.
- Providing advice and recommendations to the Legislature on funding for projects to move goods and people in the most efficient manner for the state.

The members of the council are appointed by the Governor, the President of the Senate, and the Speaker of the House of Representatives, and represent various interests involved in the Strategic Intermodal System. The council is no longer active, and held its last meeting in December 2004.<sup>2</sup>

##### Proposed Changes

The bill repeals s. 339.63(5), F.S., to eliminate the Statewide Intermodal Transportation Advisory Council.

SUMMARY ANALYSIS

Section 334.071, F.S., provides for legislative designations of transportation facilities for honorary or memorial purposes, or to distinguish a particular facility. The legislative designations do not "officially" change the current names of the facilities, nor does the statute require local governments and private entities to change street signs, mailing addresses, or 911 emergency telephone-number system listings.

The bill designates the portion of State Road 292 from Blue Angel Parkway to the beginning of Perdido Key Drive in Escambia County as "Perdido Key Parkway."

The bill also directs DOT to erect suitable markers designating "Perdido Key Parkway."

DOT estimates that the cost to erect two suitable road designating markers is approximately \$800; this assumes the placement of a marker at each end of each designated road segment. The expenditure is from the State Transportation Trust Fund and includes installation and maintenance costs.

The bill does not create any constitutional or other legal issues. It takes effect July 1, 2010.

## HOUSE PRINCIPLES

Members are encouraged to evaluate proposed legislation in light of the following guiding principles of the House of Representatives

- Balance the state budget.
- Create a legal and regulatory environment that fosters economic growth and job creation.
- Lower the tax burden on families and businesses.
- Reverse or restrain the growth of government.

### I. SUBSTANTIVE ANALYSIS

#### A. EFFECT OF PROPOSED CHANGES:

##### Current Situation

Section 334.071, F.S., provides for legislative designations of transportation facilities for honorary or memorial purposes, or to distinguish a particular facility. The legislative designations do not "officially" change the current names of the facilities, nor does the statute require local governments and private entities to change street signs, mailing addresses, or 911 emergency telephone-number system listings.

The statute requires the Department of Transportation (DOT) to place a marker at each termini or intersection of an identified road or bridge, and to erect other markers it deems appropriate for the transportation facility. The statute also provides that a city or county must pass a resolution in support of a particular designation before road markers are erected. Additionally, if the designated road segment extends through multiple cities or counties, a resolution must be passed by each affected local government.

##### Effect of Proposed Change

The bill designates the portion of State Road 292 from Blue Angel Parkway to the beginning of Perdido Key Drive in Escambia County as "Perdido Key Parkway."

The bill also directs DOT to erect suitable markers designating "Perdido Key Parkway."

The bill takes effect on July 1, 2010.

**SUMMARY ANALYSIS**

HB 1043 provides for the creation of a "Go Green" specialty license plate. The annual use fee of \$25 per tag shall be distributed to the Coalition for Renewable Energy Solutions, Inc. Up to 10 percent of the revenue may be used for promotion, marketing, and administrative costs, and the remainder of the proceeds may be used to fund grants, awards, educational activities, and other activities promoting energy efficiency.

Specialty license plates must be specifically authorized pursuant to s. 320.08053, F.S. This statute establishes requirements that organizations must meet to create a new specialty license plate, including a scientific survey performed by an independent sampling firm indicating that 30,000 motor vehicle owners would purchase the proposed plate at the increased cost, long and short term marketing plans addressing revenues and expenditures, and a \$60,000 application fee, among other requirements. Current statutes authorize more than 100 specialty license plates.

The fiscal impact of this bill is approximately \$60,000 to the Department of Highway Safety and Motor Vehicles (DHSMV) for implementation of the new specialty license plate. The fiscal impact will be offset by the application fee of \$60,000 paid to the DHSMV by the sponsoring organization.

The Coalition for Renewable Energy Solutions, Inc., has been approved by DHSMV and the Auditor General to pursue legislation for the "Go Green" specialty license plate, and is not affected by the 2008 legislation limiting future specialty plates.

This act shall take effect October 1, 2010.

## HOUSE PRINCIPLES

Members are encouraged to evaluate proposed legislation in light of the following guiding principles of the House of Representatives

- Balance the state budget.
- Create a legal and regulatory environment that fosters economic growth and job creation.

## FULL ANALYSIS

### I. SUBSTANTIVE ANALYSIS

#### A. EFFECT OF PROPOSED CHANGES:

##### Present Situation

Currently, specialty license plates are available to any owner or lessee of a motor vehicle who is willing to pay an annual use fee for the privilege. Annual use fees ranging from \$15 to \$25, paid in addition to required license taxes and service fees, are distributed to an organization or organizations in support of a particular cause or charity signified in the plate's design and designated in statute. The Legislature may create a specialty license plate under its own initiative, or it can do so at the request of an organization. Under s. 320.08053, F.S., an organization may seek Legislative authorization for a new specialty license plate by meeting a number of requirements.

An organization is first required to submit to the DHSMV the following:

- a request for the plate describing it in general terms;
- the results of a professional, independent, and scientific sample survey of Florida residents indicating that 30,000 vehicle owners intend to purchase the plate at the increased cost;
- an application fee of \$60,000 defraying the DHSMV's cost for reviewing the application, developing the new plate, and providing for the manufacture and distribution of the first run of plates; and
- a marketing strategy for the plate and a financial analysis of anticipated revenues and planned expenditures.

These requirements must be satisfied at least 90 days prior to the convening of the regular session of the Legislature. Once the requirements are met, the DHSMV notifies the committees of the House of Representatives and Senate with jurisdiction over the issue, and the organization is free to find sponsors and pursue Legislative action.

In 2008 the Legislature passed SB 1992, which included a moratorium on the issuance of specialty plates by DHSMV.<sup>1</sup> The moratorium is effective from October 1, 2008 to July 1, 2011, but contains an exception "for [any] specialty license plate proposal which has submitted a letter of intent to the Department of Highway Safety and Motor Vehicles prior to May 2, 2008."<sup>2</sup>

---

<sup>1</sup> S. 45, 2008-176, Laws of Florida

<sup>2</sup> *Id.*

## Effect of Proposed Changes

The bill amends ss. 320.08056 and 320.08058, F.S., to authorize DHSMV to develop and issue a "Go Green" license plate upon payment of the appropriate license taxes and a \$25 special use fee.

Annual use fees collected from the sale of this license plate shall be distributed to the Coalition for Renewable Energy Solutions, Inc. The bill permits the group to use the proceeds as follows:

- Up to 10 percent may be retained for administrative costs, as well as marketing and promotion of the specialty license plate.
- Up to 40 percent to fund the "Go Green Florida" Grants and Awards Program, including monetary grants and recognition awards to public and private persons and organizations and to subsidize efforts to reduce energy consumption and raise awareness of alternative energy-efficiency practices.
- Up to 25 percent to fund education and outreach programs that publicize renewable energy solutions for households and businesses and educate home and business owners about the environmental and financial benefits of innovative green technologies and practices.
- Up to 25 percent to fund educational programs and materials that emphasize sustainable development practices, including recycling, energy efficiency and consumption, and other green practices.

The fiscal impact incurred by DHSMV as a result of this bill is approximately \$60,000. This impact is offset by the \$60,000 application fee Coalition for Renewable Energy Solutions, Inc., is required to pay as part of the application process. Revenue generated from the sale of this license plate is based on public interest and cannot be predicted.

The DHSMV has notified the Legislature that the Coalition for Renewable Energy Solutions, Inc. has met the initial application and statutory requirements to pursue legislation for the "Go Green" specialty license plate. In conformity with s. 320.08053(1)(b), F.S., the Auditor General has issued a report validating the Alliance's survey.<sup>3</sup> This report also found that the "Go Green" plate falls within the exception from the moratorium on new specialty license plates created by the 2008 Legislature, as the Coalition submitted their materials before May 2, 2008.<sup>4</sup>

### B. SECTION DIRECTORY:

- Section 1 Amends s. 320.08056(4), F.S., providing for a \$25 annual use fee for the "Go Green" license plate.
- Section 2 Creates s. 320.08058(70), F.S., creating the "Go Green" specialty license plate; providing for plate design; and providing for the distribution and uses of the annual use fees.
- Section 3 Provides an Effective Date of October 1, 2010.

## II. FISCAL ANALYSIS & ECONOMIC IMPACT STATEMENT

### A. FISCAL IMPACT ON STATE GOVERNMENT:

#### 1. Revenues:

See fiscal comments below.

<sup>3</sup> Report No. 2009-129, Auditor General, February 2009.

<sup>4</sup> *Id.*

2. Expenditures:  
See fiscal comments below.

**B. FISCAL IMPACT ON LOCAL GOVERNMENTS:**

1. Revenues:  
None.
2. Expenditures:  
None.

**C. DIRECT ECONOMIC IMPACT ON PRIVATE SECTOR:**

Persons who elect to purchase the specialty license plate will be required to pay an annual use fee of \$25 in addition to applicable taxes and administrative charges. It is impossible to determine how many people will purchase the plates because the sale of this license plate will be based on public interest. Therefore, the aggregate impact to the private sector cannot be determined.

**D. FISCAL COMMENTS:**

Implementation of HB 1043 will cost the DHSMV approximately \$60,000 in contract programming, development labor, and product purchasing costs for the creation of the "Go Green" license plate. This fiscal impact is offset by the statutory application fee of \$60,000, which has been submitted to the DHSMV by the Coalition for Renewable Energy Solutions, Inc., for the creation of this specialty license plate. If the specialty license plate is not approved by the Legislature, the application fee shall be refunded.

**III. COMMENTS**

**A. CONSTITUTIONAL ISSUES:**

1. Applicability of Municipality/County Mandates Provision:

Not applicable because the bill does not appear to: require counties or cities to spend funds or take action requiring the expenditure of funds; reduce the authority that cities or counties have to raise revenues in the aggregate; or reduce the percentage of a state tax shared with cities or counties.

SUMMARY ANALYSIS

Section 334.071, F.S., provides for legislative designations of transportation facilities for honorary or memorial purposes, or to distinguish a particular facility. The legislative designations do not "officially" change the current names of the facilities, nor does the statute require local governments and private entities to change street signs, mailing addresses, or 911 emergency telephone-number system listings.

The bill provides the following road designations:

- State Road 285 in Okaloosa and Walton Counties that is north of College Boulevard in the City of Niceville as the "Doolittle Raiders Highway."
- U.S. Highway 331 between the Alabama State Line and U.S. Highway 98 that includes the incorporated area of Walton Highway as "The Beach Highway."

The bill requires DOT to erect suitable markers designating each of these road designations.

DOT estimates that the cost to erect eight suitable road designating markers is approximately \$1,600; this assumes the placement of a marker at each end of each designated road segment. The expenditure is from the State Transportation Trust Fund and includes installation and maintenance costs.

The bill does not create any constitutional or other legal issues. It takes effect July 1, 2010.

## HOUSE PRINCIPLES

Members are encouraged to evaluate proposed legislation in light of the following guiding principles of the House of Representatives

- Balance the state budget.
- Create a legal and regulatory environment that fosters economic growth and job creation.
- Lower the tax burden on families and businesses.
- Reverse or restrain the growth of government.
- Promote public safety.
- Promote educational accountability, excellence, and choice.
- Foster respect for the family and for innocent human life.
- Protect Florida's natural beauty.

### I. SUBSTANTIVE ANALYSIS

#### A. EFFECT OF PROPOSED CHANGES:

##### Current Situation

Section 334.071, F.S., provides for legislative designations of transportation facilities for honorary or memorial purposes, or to distinguish a particular facility. The legislative designations do not "officially" change the current names of the facilities, nor does the statute require local governments and private entities to change street signs, mailing addresses, or 911 emergency telephone-number system listings.

The statute requires the Department of Transportation (DOT) to place a marker at each termini or intersection of an identified road or bridge, and to erect other markers it deems appropriate for the transportation facility. The statute also provides that a city or county must pass a resolution in support of a particular designation before road markers are erected. Additionally, if the designated road segment extends through multiple cities or counties, a resolution must be passed by each affected local government.

##### Effect of Proposed Change

The bill provides the following road designations:

- State Road 285 in Okaloosa and Walton Counties that is north of College Boulevard in the City of Niceville as the "Doolittle Raiders Highway."
- U.S. Highway 331 between the Alabama State Line and U.S. Highway 98 that includes the incorporated area of Walton Highway as "The Beach Highway."

The bill requires DOT to erect suitable markers designating each of these road designations.

#### B. SECTION DIRECTORY:

- Section 1      Designates the "Doolittle Raiders Highway," directs DOT to erect suitable markers.
- Section 2      Designates "The Beach Highway," directs DOT to erect suitable markers.
- Section 3      Provides an effective date.
