### I. SUBSTANTIVE ANALYSIS

#### A. EFFECT OF PROPOSED CHANGES:

##### Present Situation

Currently, the Florida Constitution requires public campaign financing for statewide candidates (Governor and cabinet officers), with implementation by general law. Article VI, s. 7, Fla. Const., provides:

*It is the policy of this state to provide for state-wide elections in which all qualified candidates may compete effectively. A method of public financing for campaigns for state-wide office shall be established by law. Spending limits shall be established for such campaigns for candidates who use public funds in their campaigns. The legislature shall provide funding for this provision. General law implementing this paragraph shall be at least as protective of effective competition by a candidate who uses public funds as the general law in effect on January 1, 1998.*

The Constitutional provision has been in place since 1998, after being proposed by the Constitution Revision Commission and approved by the voters in the 1998 general election.<sup>1</sup> The program itself, however, has been in place since 1986.<sup>2</sup>

The matching funds program is provided by general law in ss. 106.30-106.355, F.S., and administered by the Department of State's Division of Elections (Division). The program can be summarized as follows:

- Participating statewide candidates must have opposition;
- Only personal contributions from state residents are eligible for matching;<sup>3</sup> corporate and political committee contributions are not eligible for matching;

---

<sup>1</sup> The 1998 amendments were part of Revision 11 proposed by the Constitution Revision Commission, and were approved by 64 percent of the voters. Revision 11 was an omnibus proposal made up of several election-related changes. It provided that ballot access requirements for independent and minor party candidates cannot be greater than requirements for majority party candidates, allowed all voters, regardless of party, to vote in any party's primary election if the winner will have no general election opposition, provided *public financing of campaigns for statewide candidates*, permitted candidates for governor to run in primary elections without a lieutenant governor, made school board elections nonpartisan and corrected the required voting age of 21 for voters of presidential electors.

<sup>2</sup> Chapter 86-276, Laws of Fla.

- Contributions received after September 1 of the calendar year preceding the election are eligible for matching;
- Participating candidates must raise an initial amount of \$150,000 (for gubernatorial candidates) or \$100,000 (for candidates for Cabinet offices); and
- The threshold amounts above are matched on a two-to-one basis, and after that, a contribution is eligible to be matched on a one-to-one basis, up to \$250. Thus, if a person makes a \$250 contribution, it is matched with \$250 from the state.

Participating candidates must complete a form declaring their intention to apply for public campaign financing at the time of qualifying and after this declaration, submit their contributions for audit by the Division to determine eligibility for the match. The Division audits the submissions and makes payment to the candidate, beginning immediately on the 32nd day before the primary election and every seven days thereafter.

Participating candidates must abide by certain expenditure limits, pursuant to s. 106.34, F.S. In 2005, the Legislature increased those expenditure limits (ch. 2005-278, Laws of Fla.) to the following amounts:

Gov./Lt. Gov. – Increased from \$5 million to \$2.00 per each Florida-registered voter, or roughly \$20.5 million.<sup>4</sup>

Cabinet Offices – Increased from \$2 million to \$1.00 per each Florida-registered voter, or roughly \$10.2 million.

The program originally was funded from the Election Campaign Financing Trust Fund, which was established in 1986. The Trust Fund was funded with filing fees, assessments and civil penalties collected by the Florida Elections Commission. The Trust Fund expired by operation of s. 19(f), Article III, Fla. Const., on November 4, 1996, which requires state trust funds in existence prior to 1992 to terminate not more than four years from November 4, 1992, unless recreated. Since the Trust Fund terminated, the program has been funded from General Revenue.

A number of other states have some form of public matching funds program in place, whether it be partial matching from a variety of sources such as legislative funding or taxpayer check-offs, or a “Clean Elections” program, whereby a campaign is fully funded with state funds once he or she has raised sufficient “seed” money.<sup>5</sup>

New Jersey operates a public financing program similar to that of Florida, whereby a gubernatorial candidate must initially raise \$300,000 to qualify. After the candidate qualifies and declares intent to participate in the program, the candidate receives \$6,000 from the state for every \$3,000 raised from private sources. Participating candidates must also agree to limit their expenditures in the primary and general elections.

Maine has operated a “Clean Elections” program since 2000. Gubernatorial candidates must initially collect 2,500 contributions of \$5 each. State house and senate candidates also are eligible to participate in the program. Once a candidate has raised the requisite “seed money,” the candidate is prohibited from receiving additional private funds.

---

<sup>3</sup> In 2001, the Legislature enacted a law that excluded out-of-state contributions from eligibility for matching. (s. 69, ch. 2001-40, Laws of Fla.)

<sup>4</sup> As of May 2007, there were 10,251,312 registered voters in the State of Florida.

### Proposed Changes

HJR 81 is a joint resolution that would repeal Florida's public financing program for statewide candidates and must be approved by a 3/5 vote of the membership of each house of the Legislature. If enacted, the proposal will be presented to the electors of Florida at the November 2, 2010, general election. Approval requires a favorable vote from 60 percent or more of the electors voting on the measure.<sup>9</sup>

If approved, HJR 81 would take effect January 4, 2011.

## II. FISCAL ANALYSIS & ECONOMIC IMPACT STATEMENT

### A. FISCAL IMPACT ON STATE GOVERNMENT:

#### 1. Revenues:

None.

#### 2. Expenditures:

In excess of \$11 million from the General Revenue Fund was disbursed in 2006 to participating candidates. In the prior three election cycles (normally every 4 years), the following aggregate amounts were distributed to statewide candidates from the General Revenue Fund:

- 1998 - \$4.6 million
- 2000 - \$914,885<sup>10</sup>
- 2002 - \$5.2 million

Based upon the costs involved in the 2008 election for advertising a proposed constitutional amendment, the total cost for advertising this proposed constitutional amendment is estimated to be \$14,722. The cost is determined by multiplying the total number of words in the proposed amendment by the average per word cost of \$92.01.<sup>11</sup>

### B. FISCAL IMPACT ON LOCAL GOVERNMENTS:

#### 1. Revenues:

None.

#### 2. Expenditures:

There is an indeterminate cost to local government for possible costs related to the printing of the ballot. There could be a cost if additional pages were needed to print the language that appears on the ballot.

### C. DIRECT ECONOMIC IMPACT ON PRIVATE SECTOR:

If the proposal is adopted, candidates would no longer be able to depend on matching funds from the program to help fund their statewide campaigns.

### D. FISCAL COMMENTS:

This joint resolution would potentially avoid future state expenditures from the General Revenue Fund by an indeterminate amount.

<sup>10</sup> In 2000, a non-gubernatorial election year, the two cabinet offices of State Treasurer and Commissioner of Education were up for election. At the time, Bill Nelson, as the State Treasurer, resigned from that office to run for U.S. Senate. Tom Gallagher, as the Commissioner of Education, ran for the State Treasurer post vacated by Nelson. Charlie Crist then ran for the Commissioner of Education post vacated by Mr. Gallagher. Crist, Gallagher and John Cosgrove received matching funds from the program in the 2000 election in the total amount listed above.

Table with 4 columns: REFERENCE, ACTION, ANALYST, STAFF DIRECTOR. Rows include Governmental Affairs Policy Committee, Economic Development & Community Affairs Policy Council, Transportation & Economic Development Appropriations Committee, Full Appropriations Council on Education & Economic Development.

SUMMARY ANALYSIS

CS/HB 83 makes the necessary statutory deletions to complete a repeal of the Florida Election Campaign Financing Act, as provided in ss. 106.30-106.36, F.S. The bill is tied to HJR 81, which proposes a repeal of the public campaign financing program found in Article VI, s. 7, Fla. Const. That section provides:

It is the policy of this state to provide for state-wide elections in which all qualified candidates may compete effectively. A method of public financing for campaigns for state-wide office shall be established by law. Spending limits shall be established for such campaigns for candidates who use public funds in their campaigns. The legislature shall provide funding for this provision. General law implementing this paragraph shall be at least as protective of effective competition by a candidate who uses public funds as the general law in effect on January 1, 1998.

CS/HB 83 deletes references to the Election Campaign Financing Trust Fund, which expired November 4, 1996. It also corrects cross-references and makes conforming changes.

This bill would potentially avoid future state expenditures from the General Revenue Fund by an indeterminate amount. State expenditures for the past four statewide election cycles have been: in excess of \$11 million for 2006; \$5.2 million for 2002; \$915,000 for 2000; and \$4.6 million for 1998.

CS/HB 83 is effective upon approval by the electors of HJR 81 at the November 2010 general election.

### I. SUBSTANTIVE ANALYSIS

#### A. EFFECT OF PROPOSED CHANGES:

##### Present Situation

Currently, the Florida Constitution requires public campaign financing for statewide candidates (Governor and cabinet officers), with implementation by general law. Article VI, s. 7, Fla. Const., provides:

*It is the policy of this state to provide for state-wide elections in which all qualified candidates may compete effectively. A method of public financing for campaigns for state-wide office shall be established by law. Spending limits shall be established for such campaigns for candidates who use public funds in their campaigns. The legislature shall provide funding for this provision. General law implementing this paragraph shall be at least as protective of effective competition by a candidate who uses public funds as the general law in effect on January 1, 1998.*

The above provision has been in place since 1998 after being proposed by the Constitution Revision Commission and approved by the voters in the 1998 general election. The statutory component, however, has been in place since 1986.<sup>1</sup>

Public campaign financing or matching funds program is provided by general law in ss. 106.30-106.355, F.S., and administered by the Department of State's Division of Elections (Division). The program can be summarized as follows:

- Participating statewide candidates must have opposition;
- Only personal contributions from state residents are eligible for matching;<sup>2</sup> corporate and political committee contributions are not eligible for matching;
- Contributions received after September 1 of the calendar year preceding the election are eligible for matching;
- Participating candidates must raise an initial amount of \$150,000 (for gubernatorial candidates) or \$100,000 (for candidates for Cabinet offices); and

---

<sup>1</sup> Chapter 86-276, Laws of Fla.

<sup>2</sup> In 2001, the Legislature enacted a law that excluded out-of-state contributions from eligibility for matching. (s. 69, ch. 2001-40, Laws of Fla.)

- The threshold amounts above are matched on a two-to-one basis, and after that, a contribution is eligible to be matched on a one-to-one basis, up to \$250. Thus, if a person makes a \$250 contribution, it is matched with \$250 from the state. But, if for example, a person makes a \$500 contribution, only \$250 of that contribution will be matched.

Candidates for statewide office must complete a form declaring their intention to apply for public campaign financing at the time of qualifying and after this declaration, submit their contributions for audit by the Division to determine eligibility for the match. The Division then audits the submissions and makes payment to the candidate, beginning immediately after the qualifying period ends and every seven days thereafter.

Participating candidates must abide by certain expenditure limits, pursuant to s. 106.34, F.S. In 2005, the Legislature increased those expenditure limits<sup>3</sup> as follows:

Gov./Lt. Gov. – Increased from \$5 million to \$2.00 per each Florida-registered voter, or roughly \$20.5 million.<sup>4</sup>

Cabinet Offices – Increased from \$2 million to \$1.00 per each Florida-registered voter, or roughly \$10.2 million.

### Proposed Changes

CS/HB 83 makes the necessary statutory deletions to complete a repeal of the Florida Election Campaign Financing Act, as provided in ss. 106.30-106.36, F.S. The bill is effective upon approval of a constitutional amendment contained in HJR 81 which repeals the public campaign financing program found in Article VI, s. 7, Fla. Const. HJR 81, if enacted by the Legislature, will appear on the ballot at the November 2010 general election. Proposed constitutional amendments require approval by 60 percent of the electors voting on the measure.

CS/HB 83 revises expenditure limits for any candidate for Governor and Lieutenant Governor or Cabinet officer who requests contributions from the Election Campaign Financing Trust Fund. These limits are revised as follows:

- Governor and Lieutenant Governor: \$5 million for each Florida-registered voter as opposed to \$2.00 each currently in law.
- Cabinet officer: \$2 million for each Florida-registered voter as opposed to \$1.00 each currently in law.

In addition, the bill requires the expenditure limit to be adjusted by the Secretary of State quadrennially to reflect the rate of inflation or deflation consistent with the Consumer Price Index or similar inflation factor.

CS/HB 83 also deletes references to the Election Campaign Financing Trust Fund, which expired effective November 4, 1996, by operation of s. 19(f), Art. III, Fla. Const. In addition, it corrects cross-references and conforms other provisions of law throughout the Florida Election Code (chs. 97-106, F.S.).

### A. CONSTITUTIONAL ISSUES:

1. Applicability of Municipality/County Mandates Provision:

Not applicable. The bill does not appear to require a county or municipality to spend funds or take an action requiring expenditures; reduce the authority that counties and municipalities had as of February 1, 1989, to raise revenues in the aggregate; or reduce the percentage of a state tax shared in the aggregate with counties and municipalities as of February 1, 1989.

**SUMMARY ANALYSIS**

CS/HB 293 amends s. 319.22, F.S., relating to requirements governing the transfer of title for motor vehicles and mobile homes. The bill requires a transferred certificate of title or other DHSMV-approved form to be submitted within 30 days of a transfer between parties (excluding licensed motor vehicle dealers or insurers). Notification is currently authorized, but not required.

The bill requires the Department of Highway Safety and Motor Vehicles (DHSMV) to collect certain information and provide certain notices to buyers and sellers. The certificate of title or department-approved form must include the vehicle information number, the buyer's full name and personal or business information along with other information required by DHSMV.

The bill also provides an exception to current forfeiture requirements regarding abandoned vehicles in s. 319.33(7)(a), F.S. CS/HB 293 provides that un-identifiable motor vehicles or mobile homes found on private property may, under certain limited circumstances, be disposed of through the lost and unclaimed property provisions of s. 705.103, F.S., rather than being treated as contraband under the Florida Contraband Forfeiture Act. This may only be accomplished if the following criteria are met:

- the motor vehicle or mobile home is found abandoned on private property;
- there is no discernable manner by which an owner, potential owner, or anyone having any interest in the vehicle can be ascertained by a law enforcement agency; and
- if the owner of the private property disclaims any ownership interest in the vehicle whatsoever.

The bill does not appear to have a significant fiscal impact, and has an effective date of July 1, 2009.

## FULL ANALYSIS

### I. SUBSTANTIVE ANALYSIS

#### A. EFFECT OF PROPOSED CHANGES:

##### Current Situation:

Section 319.22, F.S., establishes requirements governing the transfer of title for motor vehicles and mobile homes. A purchaser of a motor vehicle or mobile home cannot obtain marketable title until he or she is issued a certificate of title.<sup>1</sup> The law ceases to recognize the seller as owner or co-owner when the title is properly endorsed and delivered to the purchaser or DHSMV.<sup>2</sup> In the case of a private or casual sale (a sale between persons not licensed as dealers or insurers), the state will not transfer title unless the name of the seller is shown as the owner on the face of the title.<sup>3</sup> In addition, the state will not transfer title unless the sales price is entered in the appropriate place on the face of the certificate.<sup>4</sup>

When a motor vehicle is sold in a bona fide casual sale, the certificate of title is endorsed by the seller and the sales price is entered on the face of the certificate. The certificate or department-approved form is typically submitted *by the buyer* to the tax collector or DHSMV for transfer with an application for a new certificate of title and remittance of sales tax. A new certificate of title is then issued to the buyer. This process allows both for recording of ownership of the motor vehicle and provides an opportunity for sales tax to be assessed on the purchase.

A seller is entitled to submit a department-approved form notifying the DHSMV of a bona-fide sale. This notification serves to sever any liability for future liabilities related to the motor vehicle.<sup>5</sup>

It is a first degree misdemeanor for a buyer or a seller to knowingly attempt to transfer a title without the purchaser's name also appearing on the title.<sup>6</sup> This requirement was adopted in 2002.<sup>7</sup>

<sup>5</sup> S. 319.22(2)(a), F.S.

<sup>6</sup> S. 319.22(5), F.S.

<sup>7</sup> See S. 9, 2002-235, Laws of Florida

It is unlawful to forge or falsify a certificate of title to a motor vehicle or mobile home,<sup>8</sup> to give false identifying information regarding a title,<sup>9</sup> or to attempt to obtain or pass a title, knowing that the motor vehicle or mobile home is stolen.<sup>10</sup>

It is also unlawful to possess, sell, conceal, or dispose of a motor vehicle or mobile home, or a major component of a motor vehicle or mobile home, on which the Vehicle Identification Number (VIN) or other identifying number used by a state agency, has been "removed, covered, altered, or defaced," with knowledge of such defacement.<sup>11</sup>

Violations of these provisions are third-degree felonies, and any motor vehicle used in violation of s. 319.33, F.S., may be seized by a law enforcement agency, among other punishments provided in ss. 775.082, 775.083, and 775.084, F.S.

Section 319.33(7), F.S., provides that a motor vehicle or mobile home rendered un-identifiable because its identifying numbers have been removed, defaced, or otherwise obscured, shall be treated as contraband by a "seizing law enforcement agency," and disposed of pursuant to the Florida Contraband Forfeiture Act (ss. 932.701 - 932.704, F.S.)

The Florida Contraband Forfeiture Act (FCFA) is currently used to impound and sell vehicles used to transport illegal drugs<sup>12</sup> and a myriad of other illegal or unlicensed items, from gambling paraphernalia<sup>13</sup> to cigarettes<sup>14</sup> to undocumented cars,<sup>15</sup> boats,<sup>16</sup> and planes.<sup>17</sup>

Section 705.103, F.S., establishes procedures for lost and abandoned property generally. For large abandoned items such as vehicles, the statute requires law enforcement officers to place a large (at least 8" by 10") weatherproof sign on the property, providing a notice to the owner "and all persons interested in the attached property." The sign puts such persons on notice that the item must be removed within 5 days, or it will be disposed of "pursuant to chapter 705, Florida Statutes."

This section also requires that if the abandoned item is a vehicle, the local law enforcement agency must contact DHSMV, and must ascertain and send certified notices to any owners-of-record and to lienholders.

If the owner or interested party has not removed the vehicle or item within the required timeframes, local law enforcement may take abandoned property and:

- Retain it for local use,
- Trade it to another local or state agency,
- Donate the property to a charity,
- Sell the property, or
- Notify the appropriate refuse removal service.

<sup>17</sup> Section 329.11, F.S.

If the property is sold at auction, the law enforcement agency must reserve the proceeds for one year (less expenses), and the rightful owner of the property has one year to claim the net proceeds of the sale. At the expiration of this period, if the proceeds are unclaimed, the balance shall be deposited into the State School Fund.

### Potential Changes

HB 293 requires sellers to acknowledge a bona fide sale by submitting the department-approved form within 30 days of the transfer. The bill also amends s. 319.22, F.S., to ensure that DHSMV collects certain information and provides certain notices to buyers and sellers.

The certificate of title or department-approved form must include the VIN, the buyer's full name and personal or business information (e.g., driver's license number, identification card number, or federal employer identification number), along with other information required by DHSMV.

The bill amends s. 319.33(7)(a), F.S., to provide that if certain conditions are met, an abandoned and unidentifiable motor vehicle or mobile home need not be disposed of pursuant to the Florida Contraband Forfeiture Act, but may instead be disposed of by the procedure for lost or unclaimed property contained in s. 705.103, F.S. This alternative is available if:

- the motor vehicle or mobile home is found abandoned on private property;
- there is no discernable manner by which an owner, potential owner, or anyone having any interest in the vehicle can be ascertained by a law enforcement agency; and
- if the owner of the private property disclaims any ownership interest in the vehicle whatsoever.

#### B. SECTION DIRECTORY:

- Section 1** Amends s. 319.22, F.S., providing additional requirements for notice of transfer to DHSMV; requiring an owner or co-owner who has made a sale or transfer of a motor vehicle to notify DHSMV; providing requirements for such notification; providing applicability; requiring the department to provide certain information to the motor vehicle owner or co-owner when issuing a certificate of title.
- Section 2** Amends s. 319.33(7)(a), F.S.; providing alternative disposition for certain motor vehicle and mobile homes abandoned on private property.
- Section 3** Provides an effective date of July 1, 2009.

## II. FISCAL ANALYSIS & ECONOMIC IMPACT STATEMENT

#### A. FISCAL IMPACT ON STATE GOVERNMENT:

1. Revenues:  
N/A
2. Expenditures:  
N/A

#### B. FISCAL IMPACT ON LOCAL GOVERNMENTS:

1. Revenues:

N/A

2. Expenditures:

N/A

C. DIRECT ECONOMIC IMPACT ON PRIVATE SECTOR:

None.

D. FISCAL COMMENTS:

DHSMV has indicated that there will be no fiscal impact as a result of HB 293.

### III. COMMENTS

A. CONSTITUTIONAL ISSUES:

1. Applicability of Municipality/County Mandates Provision:

Not applicable because this bill does not appear to: require the counties or cities to spend funds or take an action requiring the expenditure of funds; reduce the authority that cities or counties have to raise revenues in the aggregate; or reduce the percentage of a state tax shared with cities or counties.

2. Other:

None.

B. RULE-MAKING AUTHORITY:

The bill permits the Department to make the additional information available to buyers and sellers "on the certificate of title or on a separate form that is included with the certificate." This language presumably permits the Department to use its current rulemaking authority to add material to relevant documents.

C. DRAFTING ISSUES OR OTHER COMMENTS:

None.

### IV. AMENDMENTS/COUNCIL OR COMMITTEE SUBSTITUTE CHANGES

On March 4, 2009, the Roads, Bridges, and Ports Policy Committee reported the bill favorably without amendment.

The amendment provides that un-identifiable motor vehicles or mobile homes found on private property may, under certain limited circumstances, be disposed of through the lost and unclaimed property provisions of s. 705.103, F.S., rather than being treated as contraband under the Florida Contraband Forfeiture Act.

22 319.22 Transfer of title.--

23 (2) (a) An owner or coowner who has made a bona fide sale  
 24 or transfer of a motor vehicle or mobile home and has delivered  
 25 possession thereof to a purchaser shall not, by reason of any of

29 thereafter by another when such owner or coowner has fulfilled  
 30 either of the following requirements:

31 1.~~(a)~~ When such owner or coowner has made proper

 39 interest in the vehicle or mobile home, and the signature of any  
 40 coowner shall constitute proper endorsement. Upon the death of a  
 41 coowner, the interest of the decedent shall pass to the survivor  
 42 as though title or interest in the vehicle or mobile home was  
 43 held in joint tenancy. This provision shall apply even if the  
 44 coowners are husband and wife.

45 b.2.~~2.~~ When a vehicle or mobile home is registered in the

 54 held.

55 2.~~(b)~~ When such owner or coowner has delivered to the  
 56 department, or placed in the United States mail, addressed to

57 the department, either the certificate of title properly  
58 endorsed or a notice in the form prescribed by the department.  
59 In addition to the information required by the department under  
60 this subparagraph, the notice must also contain the information  
61 required under paragraph (b) when the title being transferred is  
62 to a motor vehicle.

63 (b) An owner or coowner who has made a bona fide sale or  
64 transfer of a motor vehicle and has delivered possession thereof  
65 to a purchaser shall notify the department within 30 days after  
66 the sale or transfer in the form prescribed by the department.  
67 Notice by such owner or coowner under this paragraph shall  
68 satisfy the notice requirement under subparagraph (a)2. for  
69 limitation of liability under paragraph (a). The notification  
70 shall include the vehicle identification number and the buyer's  
71 full first name, middle initial, last name, and personal or  
72 business identification, which may include, but need not be  
73 limited to, a driver's license number, Florida identification  
74 card number, or federal employer identification number, and any  
75 information required by the department. This paragraph shall not  
76 apply to any transfer or sale to or by a licensed motor vehicle  
77 dealer or to an insurer who has taken possession or is taking  
78 possession of the vehicle or the title thereto pursuant to a  
79 policy of insurance.

80 (c) The department shall inform the motor vehicle owner or

### SUMMARY ANALYSIS

CS/HB 403 authorizes each state university to charge a tuition differential subject to approval by the Board of Governors. In addition to the five state universities that currently charge the tuition differential—the University of Florida, Florida State University, the University of South Florida, the University of Central Florida, and Florida International University—the remaining six state universities would be authorized to establish a tuition differential, as well.

Seventy percent of the tuition differential would be used to promote improvements in undergraduate education and thirty percent would be used to provide financial aid to undergraduate students who exhibit financial need. The aggregate sum of tuition and the tuition differential could not increase by more than 15 percent of the total charged for these fees in the previous year. The total undergraduate tuition and fees per credit hour could not exceed the national average for undergraduate tuition and fees at 4-year degree-granting public postsecondary educational institutions.

The current requirements of the tuition differential would continue to apply to students, as follows:

- The tuition differential is not covered by the Bright Futures Scholarship Program;
- Students who were in attendance at the qualifying institution prior to July 1, 2007, and who maintain continuous enrollment may not be charged the tuition differential;
- A university may waive the tuition differential for students who demonstrate unmet financial need under the criteria for the Florida Public Student Assistance Grant (FSAG); and
- Beneficiaries having prepaid tuition contracts in the Prepaid College Tuition Program in effect on July 1, 2007, and which remain in effect, are exempt from the payment of the tuition differential.

The Board of Governors must issue a report to the President of the Senate, the Speaker of the House of Representatives, and the Governor regarding the implementation of the tuition differential.

Because the tuition differential is authorized, not required, and may vary by institution, the fiscal impact is indeterminate. See FISCAL COMMENTS for additional information.

The effective date of this act is July 1, 2009.

## FULL ANALYSIS

### I. SUBSTANTIVE ANALYSIS

#### A. EFFECT OF PROPOSED CHANGES:

##### Background

##### Tuition Differential

The 2007 Legislature authorized the Board of Governors of the State University System to establish a tuition differential for research universities with a cap of 30 percent or 40 percent of tuition, depending on the classification of the institution.<sup>1</sup> The tuition differential is a supplemental fee that is charged for undergraduate instruction. Under the criteria established in 2007, Florida State University and the University of Florida met the criteria for a differential capped at 40 percent of tuition, and the University of South Florida met the criteria for a differential capped at 30 percent. The three institutions that were eligible to impose a tuition differential in 2007 delayed imposing the tuition differential for one year. The 2008 Legislature revised the eligibility criteria for the tuition differential that is capped at 30 percent, and two more universities, Florida International University and the University of Central Florida, became eligible to impose a tuition differential<sup>2</sup>. In the 2008-2009 academic year, all five universities that are authorized to do so imposed a tuition differential for undergraduate students.

<i>University</i>	<i>Criteria Met<sup>3</sup></i>	<i>Tuition Differential</i>
Florida International University	\$100 Million R&D Expenditures	\$6.96
Florida State University	Funding Level 1	\$6.96
University of Central Florida	\$100 Million R&D Expenditures	\$2.32
University of Florida	Funding Level 1	\$6.96
University of South Florida	\$100 Million R&D Expenditures	\$6.96

<sup>1</sup> Ch. 2007-225, L.O.F.; The classifications for the funding levels were based on the 2005 Carnegie Classifications for research universities.

<sup>2</sup> Ch. 2008-193, L.O.F.

<sup>3</sup> The BOG authorized universities meeting the criteria for either Funding Level 1 or \$100 million R&D expenditures to establish the 2008-2009 tuition differential at no more than \$6.96 per credit hour above the \$82.03 tuition established in the General Appropriations Act (see Specific Appropriation 151, § 2, ch. 2008-152, L.O.F.). This increase, combined with the six percent increase authorized by the Legislature, results in the maximum allowable 15 percent annual increase above the 2007-2008 tuition of \$77.39 per credit hour. See BOG Minutes of May 8, 2008, Telephone Conference Call, available at [http://www.flbog.org/pressroom/meeting\\_archive.php](http://www.flbog.org/pressroom/meeting_archive.php).

The revenue generated from the tuition differential must be spent solely for improving the quality of direct undergraduate instruction and support services.<sup>4</sup>

The tuition differential is subject to the following conditions:<sup>5</sup>

- ❖ The sum of tuition and the tuition differential may not be increased by more than 15 percent of the total charged for these fees in the preceding fiscal year.
- ❖ The tuition differential is not covered by Bright Futures Scholarships.
- ❖ Beneficiaries with prepaid tuition contracts for university plans which were in effect on July 1, 2007, and which remain in effect, are exempt from the payment of the tuition differential.
- ❖ The tuition differential may not be charged to any student who was in attendance at the university before July 1, 2007, and who maintains continuous enrollment.
- ❖ The tuition differential may be waived for students who meet the eligibility requirements for the Florida Public Student Assistance Grant.<sup>6</sup>
- ❖ A university board of trustees that has been authorized by the BOG to establish a tuition differential may establish it at a rate lower than that authorized, but may not exceed the maximum tuition differential established by the BOG.

The Prepaid College Board is authorized to offer advance payment contracts for a community college tuition plan, a university tuition plan, a community college plus university tuition plan, a university dormitory plan, a local fee plan, and a tuition differential fee plan.<sup>7</sup> Beneficiaries with prepaid tuition contracts for university plans which were in effect on July 1, 2007, and which remain in effect, are exempt from the payment of the tuition differential.<sup>8</sup>

#### Education Estimating Conference

Section 216.136(4), F.S., directs the Education Estimating Conference to provide official information relating to the state's public and private educational system as the conference determines is needed for the state's planning and budgeting system. This includes forecasts of student enrollments, the number of students that qualified for state financial aid programs and for the Florida Resident Access Grant Program and the appropriation required to fund the full award amounts for each program, fixed capital outlay needs, and Florida Education Finance Program formula needs.<sup>9</sup> The Education Estimating Conference is one of several consensus estimating conferences defined in s. 216.133, F.S. The term "official information" means the data, forecasting, estimates, analyses, studies, and other information which the principals of a consensus estimating conference unanimously adopt for purposes of the state planning and budgeting system. The principals of the conference consist of professional staff from the Executive Office of the Governor, the coordinator of the Office of Economic and Demographic Research, and professional staff of the Senate and House of Representatives. All of the principals of a consensus estimating conference must reach unanimous consent in order to produce an official estimate. Each state agency must use the official information developed by the consensus estimating conference in carrying out their duties under the state planning and budgeting system.<sup>10</sup> For purposes of fiscal affairs of the state, appropriations acts, legislative budgets, and approved budgets, the term "state agency" is defined to mean any official, officer, commission, board, authority, council, committee, or department of the executive branch of state government.<sup>11</sup>

The National Center for Education Statistics annually publishes the *Digest of Education Statistics*, which includes information on the average undergraduate tuition and required fees for full-time students in degree-granting institutions by type and control of institution and state or jurisdiction. The US average reported for in-state students at public 4-year institutions for 2006-07 was \$5,685. The average reported for Florida for in-state students at public 4-year institutions for 2006-07 was \$3,050.<sup>12</sup>

The College Board reports that the average published tuition and fees amount for in-state students at public 4-year colleges and universities was \$6,585 for 2008-09. The amount reported for Florida was \$3,792. Tuition and fee figures are based on charges to full-time students over the course of a nine-month academic year of 30 semester hours or 45 quarter hours.<sup>13</sup>

### State University Fees

Current law authorizes state universities to charge a financial aid fee to provide funds for financial aid awards. A minimum of 75 percent of funds from the financial aid fee used for new awards must provide aid based on absolute need.<sup>14</sup> According to the Board of Governors, all of the universities met the requirement for need-based financial aid awards in Fiscal Year 2006-07.<sup>15</sup>

### Effect of Proposed Changes

CS/HB 403 authorizes each state university to charge a tuition differential subject to approval by the Board of Governors. In addition to the five state universities that currently charge the tuition differential—the University of Florida, Florida State University, the University of South Florida, the University of Central Florida, and Florida International University—the remaining six state universities would be authorized to establish a tuition differential, as well. The aggregate sum of tuition and the tuition differential could not increase by more than 15 percent of the total charged for these fees in the previous year. The total undergraduate tuition and fees per credit hour could not exceed the national average for undergraduate tuition and fees at 4-year degree-granting public postsecondary educational institutions.

### Uses of the Tuition Differential

The tuition differential must be used to promote improvements in the quality of undergraduate education and to provide financial aid to students who exhibit financial need. Seventy percent of the tuition differential would be used for undergraduate education and thirty percent would be used to provide financial aid to undergraduate students who exhibit financial need.

Uses of the tuition differential for undergraduate education may include, but are not limited to, increasing course offerings, improving graduation rates, increasing the percentage of undergraduate students who are taught by faculty, decreasing student-faculty ratios, providing salary increases for faculty who have a history of excellent teaching in undergraduate courses, improving the efficiency of the delivery of undergraduate education through academic advisement and counseling, and reducing the percentage of students who graduate with excess hours. The bill prohibits using the tuition differential to pay the salaries of graduate teaching assistants.

The thirty percent of the tuition differential that must be expended for need-based financial aid may not supplant the amount of need-based financial aid the university provided to undergraduate students in the preceding fiscal year from financial aid fee revenues or the direct appropriation for financial assistance provided to state universities in the General Appropriations Act.

### Procedures for Establishing a Tuition Differential

A university board of trustees may submit a proposal to the Board of Governors to implement a tuition differential for one or more undergraduate courses. The proposal must indicate:

- The course or courses for which the tuition differential would be assessed;
- The amount that would be assessed for each tuition differential proposed;
- The purpose of the tuition differential;
- How the revenues from the tuition differential would be used; and
- How the university would monitor the success of the tuition differential in achieving the purpose for which it is being assessed.

The Board of Governors must review each proposal and advise the university board of trustees of approval of the proposal, the need for additional information or revision to the proposal, or denial of the proposal.

By January 1, 2010, and no later than January 1 each year thereafter, the Board of Governors must submit a report to the President of the Senate, the Speaker of the House of Representatives, and the Governor that summarizes the proposals received by the board during the preceding fiscal year and the actions taken by the board in response to such proposals. The report must provide information concerning the courses for which the tuition differential was assessed, the revenues generated, and waivers authorized. The report must also include data regarding changes in retention rates, graduation rates, pass rates on licensure exams, students graduating with excess hours, the number of undergraduate course offerings, the percentage of undergraduate students who are taught by faculty, student-faculty ratios, and the average salaries of faculty who teach undergraduate courses.

The current requirements of the tuition differential would continue to apply to students, as follows:

- The tuition differential is not covered by the Bright Futures Scholarship Program;
- Students who were in attendance at the qualifying institution prior to July 1, 2007, and who maintain continuous enrollment may not be charged the tuition differential;
- A university may waive the tuition differential for students who demonstrate unmet financial need under the criteria for the Florida Public Student Assistance Grant (FSAG); and
- Beneficiaries having prepaid tuition contracts in the Prepaid College Tuition Program in effect on July 1, 2007, are exempt from the payment of the tuition differential.

A state university would not be required to lower a tuition differential that was approved by the Board of Governors prior to January 1, 2009, in order to comply with the requirements of this bill.

### The Education Estimating Conference

CS/HB 403 requires the Education Estimating Conference to develop information relating to the national average of tuition and fees at public postsecondary educational institutions.

### Financial Aid Fee

The bill requires 75 percent of financial aid fee revenues to be spent on need-based aid. According to the Board of Governors, most of the state universities would meet or exceed this requirement, based on prior year data.<sup>16</sup>

## II. FISCAL ANALYSIS & ECONOMIC IMPACT STATEMENT

### A. FISCAL IMPACT ON STATE GOVERNMENT:

1. Revenues:  
See FISCAL COMMENTS
2. Expenditures:  
See FISCAL COMMENTS

### B. FISCAL IMPACT ON LOCAL GOVERNMENTS:

1. Revenues:  
See FISCAL COMMENTS
2. Expenditures:  
See FISCAL COMMENTS

### C. DIRECT ECONOMIC IMPACT ON PRIVATE SECTOR:

#### D. FISCAL COMMENTS:

The bill authorizes university boards of trustees to establish a tuition differential upon receipt of approval from the Board of Governors. There is no requirement that a university board of trustees establish a tuition differential.

The bill caps the sum of undergraduate tuition and fees per credit hour at the national average. Universities that impose the differential to the maximum extent allowable would realize significantly more revenue as the cost of tuition and fees reached the national average of tuition and fees.

Assuming no increase in tuition by the Legislature and assuming the tuition differential grows by the maximum 15 percent of the total of tuition and the tuition differential each year, by the year 2013-2014 the cost per credit hour would increase from \$130.66 per credit hour to \$224.77<sup>17</sup> per credit hour at the five universities that currently have a tuition differential. If the six universities that do not currently impose a tuition differential did so and increased it by 15 percent each year, students at those universities, who now pay \$123.70 per credit hour, would pay \$210.77<sup>18</sup> per credit hour in 2013-2014.

---

<sup>17</sup> This amount includes a five percent technology fee beginning in fall 2009.

<sup>18</sup> This amount includes a five percent technology fee beginning in fall 2009.

Recipients of Bright Futures Scholarships could bear increasing responsibility for the cost of their education. If the tuition differential increased by 15 percent per year, by 2013-2014, Bright Futures Academic Scholars would pay approximately 45 percent of the cost of their education at UF, FSU, USF, FIU, and UCF. At the other six state universities, they would pay approximately 41 percent of the cost of their education.

#### Other Potential Implications:

The Florida Prepaid College Board is authorized to provide advance payment contracts for the tuition differential. As of February 12, 2009, the board has sold 17,845 prepaid contracts to cover the cost of the tuition differential. Those contracts were sold using actuarial assumptions under the existing tuition differential program.<sup>19</sup> The revisions to the tuition differential in the bill could reduce the actuarial reserves in the Florida Prepaid College Trust Fund by \$124 million.<sup>20</sup>

Future Florida Prepaid College Program contracts for tuition would not cover the cost of the tuition differential. The cost of the tuition differential contract eventually could be as high as the cost of the tuition contract, and parents would have to buy both contracts in order to cover the cost of a child's education.

### III. COMMENTS

#### A. CONSTITUTIONAL ISSUES:

1. Applicability of Municipality/County Mandates Provision:

2. Other:

The Board of Governors has challenged the Legislature's authority over the State University System.<sup>21</sup> One of the issues in that lawsuit is a challenge to the Legislature's authority in setting university tuition and fees.

#### B. RULE-MAKING AUTHORITY:

#### C. DRAFTING ISSUES OR OTHER COMMENTS:

---

<sup>19</sup> Florida Prepaid College Board analysis of HB 403.

<sup>20</sup> As of February 16, 2009, the Florida Prepaid College Board and the Board of Governors have entered into a tentative agreement concerning the payment of tuition, tuition differential fees, local fees and dormitory fees for pre-existing prepaid contracts. The agreement is contingent upon ratification by the Florida Prepaid College Board and the Board of Governors and legislative enactment authorizing the Florida Prepaid College Board to pay the amounts specified in the agreement to the state universities attended by beneficiaries of pre-existing prepaid contracts. If the agreement's payment provisions are enacted by the Legislature, the Florida Prepaid College Board staff states that this bill would have no actuarial impact upon the Florida Prepaid College Trust Fund. However, according to the board, in the absence of that agreement becoming effective, the board's actuary, Ernst & Young, estimates that the bill would reduce the actuarial reserve of the Florida Prepaid College Trust by approximately \$124 million.

#### **IV. AMENDMENTS/COUNCIL OR COMMITTEE SUBSTITUTE CHANGES**

On March 3, 2009, the State Universities & Private Colleges Policy Committee adopted one amendment to HB 403 and reported the bill favorably as a committee substitute. The amendment clarifies that a university would have flexibility in determining the uses of the tuition differential.

102 |       (a) Seventy-percent of the revenues from the tuition  
 103 | differential shall be expended for purposes of undergraduate  
 104 | education. Such expenditures may include, but are not limited  
 105 | to, increasing course offerings, improving graduation rates,  
 106 | increasing the percentage of undergraduate students who are  
 107 | taught by faculty, decreasing student-faculty ratios, providing  
 108 | salary increases for faculty who have a history of excellent  
 109 | teaching in undergraduate courses, improving the efficiency of  
 110 | the delivery of undergraduate education through academic  
 111 | advisement and counseling, and reducing the percentage of

112 students who graduate with excess hours. This expenditure for  
 113 undergraduate education may not be used to pay the salaries of  
 114 graduate teaching assistants. The remaining 30 percent of the  
 115 revenues from the tuition differential shall be expended to  
 116 provide financial aid to undergraduate students who exhibit  
 117 financial need to meet the cost of university attendance. This  
 118 expenditure for need-based financial aid shall not supplant the  
 119 amount of need-based aid provided to undergraduate students in  
 120 the preceding fiscal year from financial aid fee revenues or the  
 121 direct appropriation for financial assistance provided to state  
 122 universities in the General Appropriations Act.

123 (b) Each tuition differential is subject to the following  
 124 conditions:

125 1. The tuition differential may be assessed on one or more  
 126 undergraduate courses or on all undergraduate courses at a state  
 127 university.

128 2. The tuition differential may vary by course or courses,  
 129 campus or center location, and by institution.

130 3. The aggregate sum of tuition and the tuition  
 131 differential charged for a given course or courses may not be  
 132 increased by more than 15 percent of the total charged for the  
 133 aggregate sum of these fees in the same course or courses in the  
 134 preceding fiscal year.

135 4. The aggregate sum of undergraduate tuition and fees per  
 136 credit hour, including the tuition differential, may not exceed  
 137 the national average of undergraduate tuition and fees at 4-year  
 138 degree-granting public postsecondary educational institutions.

139        5. The tuition differential may not be calculated as a  
 140 part of the scholarship programs established in ss. 1009.53-  
 141 1009.538.

142        6. Beneficiaries having prepaid tuition contracts pursuant  
 143 to s. 1009.98(2)(b) which were in effect on July 1, 2007, and  
 144 which remain in effect, are exempt from the payment of the  
 145 tuition differential.

146        7. The tuition differential may not be charged to any  
 147 student who was in attendance at the university before July 1,  
 148 2007, and who maintains continuous enrollment.

149        8. The tuition differential may be waived by the  
 150 university for students who meet the eligibility requirements  
 151 for the Florida public student assistance grant established in  
 152 s. 1009.50.

153        9. Subject to approval by the Board of Governors, the  
 154 tuition differential authorized pursuant to this subsection may  
 155 take effect with the 2009 fall term.

156        (c) A university board of trustees may submit a proposal  
 157 to the Board of Governors to implement a tuition differential  
 158 for one or more undergraduate courses. At a minimum, the  
 159 proposal shall:

160            1. Identify the course or courses for which the tuition  
 161 differential will be assessed.

162            2. Indicate the amount that will be assessed for each  
 163 tuition differential proposed.

164            3. Indicate the purpose of the tuition differential.

165            4. Indicate how the revenues from the tuition differential  
 166 will be used.

167 5. Indicate how the university will monitor the success of  
 168 the tuition differential in achieving the purpose for which the  
 169 tuition differential is being assessed.

170 (d) The Board of Governors shall review each proposal and  
 171 advise the university board of trustees of approval of the  
 172 proposal, the need for additional information or revision to the  
 173 proposal, or denial of the proposal. The Board of Governors  
 174 shall establish a process for any university to revise a  
 175 proposal or appeal a decision of the board.

176 (e) The Board of Governors shall submit a report to the  
 177 President of the Senate, the Speaker of the House of  
 178 Representatives, and the Governor describing the implementation  
 179 of the provisions of this subsection no later than January 1,  
 180 2010, and no later than January 1 each year thereafter. The  
 181 report shall summarize proposals received by the board during  
 182 the preceding fiscal year and actions taken by the board in  
 183 response to such proposals. In addition, the report shall  
 184 provide the following information for each university that has  
 185 been approved by the board to assess a tuition differential:

186 1. The course or courses for which the tuition  
 187 differential was assessed and the amount assessed.

188 2. The total revenues generated by the tuition  
 189 differential.

190 3. With respect to waivers authorized under subparagraph  
 191 (b)8., the number of students eligible for a waiver, the number  
 192 of students receiving a waiver, and the value of waivers  
 193 provided.

194 4. Detailed expenditures of the revenues generated by the  
 195 tuition differential.

196 5. Changes in retention rates, graduation rates, the  
 197 percentage of students graduating with more than 110 percent of  
 198 the hours required for graduation, pass rates on licensure  
 199 examinations, the number of undergraduate course offerings, the  
 200 percentage of undergraduate students who are taught by faculty,  
 201 student-faculty ratios, and the average salaries of faculty who  
 202 teach undergraduate courses.

203 (f) No state university shall be required to lower any  
 204 tuition differential that was approved by the Board of Governors  
 205 and in effect prior to January 1, 2009, in order to comply with  
 206 the provisions of this subsection. ~~The Board of Governors may~~

**SUMMARY ANALYSIS**

HB 687 requires that application and renewal forms for motor vehicle registration include an option to make a voluntary contribution of \$1 to the Florida Sheriffs Youth Ranches, Inc. A voluntary check-off box would be added to the DHSMV application forms. Any contributions collected would be transferred by DHSMV each month to Florida Sheriffs Youth Ranches, Inc., a not-for-profit organization.

Florida Statutes require organizations seeking a voluntary contribution "check-off" to submit to the DHSMV a request for the particular contribution being sought, an application fee not to exceed \$10,000, a short-term and long-term marketing plan, and an analysis outlining anticipated revenues and planned expenditures of such revenues. DHSMV must receive this information at least 90 days before convening of the next regular session.

DHSMV has certified that the Florida Sheriffs Youth Ranches, Inc. has complied with s. 322.081, F.S., regarding requests to establish a voluntary check-off, by submitting its letter of request, \$10,000 application fee, and approved short- and long-term marketing plans.

This act shall take effect July 1, 2009.

### I. SUBSTANTIVE ANALYSIS

#### A. EFFECT OF PROPOSED CHANGES:

##### Current Situation:

Section 320.02, (14) & (15) F.S., provides vehicle owners with an opportunity to make voluntary contributions to seven organizations or causes when registering a vehicle or when renewing a vehicle registration:

- Transportation Disadvantaged Trust Fund,
- Prevent Blindness Florida,
- Florida Mothers Against Drunk Driving, Inc.,
- Southeastern Guide Dogs, Inc.,
- Stop Heart Disease, and
- Children's Hearing Help Fund,
- State Homes for Veterans Trust Fund, and
- Family First

Currently, a contribution to the Florida Sheriffs Youth Ranches, Inc. is not an option for a voluntary contribution on motor vehicle registration and registration renewal forms.

Voluntary check-off contributions on vehicle registrations and driver's licenses must be authorized by a statutory change. Florida Statutes require organizations to submit to the DHSMV a request for the particular contribution being sought, an application fee not to exceed \$10,000, a short-term and long-term marketing plan, and an analysis outlining anticipated revenues and planned expenditures of such revenues. DHSMV must receive this information at least 90 days before convening of the next regular session. In addition, the law specifically prohibits the use of state funds to pay the application fee.

##### Effect of Proposed Changes:

HB 687 amends s. 320.02, F.S., to include voluntary donations to the Florida Sheriffs Youth Ranches, Inc., on motor vehicle registration and renewal of registration applications, respectively. DHSMV has certified that Florida Sheriffs Youth Ranches, Inc. has complied with s. 320.023, F.S. by timely

submitting its letter of request, \$10,000 application fee, and approved short- and long-term marketing plans.<sup>1</sup>

Founded in 1957 by the Florida Sheriffs Association, the Youth Ranches is a non-profit, residential child-care and family service organization primarily dependent on gifts and support of donors. It is a nationally recognized, accredited agency with sites throughout the state of Florida.<sup>2</sup>

**B. SECTION DIRECTORY:**

Section 1 Adds a paragraph to subsection (15) of section 320.02, F.S., to include language permitting a voluntary contribution to Florida Sheriffs Youth Ranches, Inc. on the application form for motor vehicle registration and renewals of registration.

Section 2 Provides an effective date of July 1, 2009.

#### A. EFFECT OF PROPOSED CHANGES:

##### Current Situation:

Article III, Section 19(f) of the Florida Constitution requires the termination of all state trust funds within four years of their initial creation, unless exempt by the Constitution or operation of law. The Welfare Transition Trust Fund will terminate on July 1, 2009, if no action is taken by the Legislature to re-create.

The Welfare Transition Trust Fund consists of funds collected from the Temporary Assistance for Needy Families (TANF) Block Grant. These moneys are used exclusively for providing services to individuals eligible for Temporary Assistance for Needy Families. The Forward March and About Face programs in the DMA are the recipients of these funds. In Fiscal Year 2008-2009, the Legislature appropriated \$2,000,000 for the Forward March and About Face programs, which was the anticipated amount of receipts.

##### Potential Changes:

The Welfare Transition Trust Fund within the Department of Military Affairs will be re-created prior to the scheduled termination date of July 1, 2009.
