Chair**

AGENDA

Education Committee
Friday, January 13, 2012
9:00 am – 12:00 pm
Reed Hall – 102 HOB

- I. Call to Order/Roll Call
- II. Opening Remarks
- III. Discussion of Higher Education issues with:
 - Dr. J. Bernard Machen, President, University of Florida
 - Dr. Eric J. Barron, President, Florida State University
- IV. Closing Remarks and Adjournment

UNIVERSITY OF FLORIDA

Mission

The University of Florida (UF) is a public land-grant, sea-grant, and space-grant research university, one of the most comprehensive in the United States. The University encompasses virtually all academic and professional disciplines. It is the largest and oldest of Florida's eleven universities, a member of the Association of American Universities, and has high national rankings by academic assessment institutions. Its faculty and staff are dedicated to the common pursuit of the University's threefold mission: teaching, research, and service. UF belongs to a tradition of great universities. Together with its undergraduate and graduate students, UF faculty participate in an educational process that links the history of Western Europe with the traditions and cultures of all societies, explores the physical and biological universes, and nurtures generations of young people from diverse backgrounds to address the needs of the world's societies. The University welcomes the full exploration of its intellectual boundaries and supports its faculty and students in the creation of new knowledge and the pursuit of new ideas. Teaching is a fundamental purpose of this University at both the undergraduate and graduate levels. Research and scholarship are integral to the educational process and to the expansion of our understanding of the natural world, the intellect, and the senses. Service reflects the University's obligation to share the benefits of its research and knowledge for the public good. The University serves the nation's and the state's critical needs by contributing to a well-qualified and broadly diverse citizenry, leadership, and workforce. The University of Florida must create the broadly diverse environment necessary to foster multi-cultural skills and perspectives in its teaching and research for its students to contribute and succeed in the world of the 21st century. These three interlocking elements span all the University's academic disciplines and represent the University's commitment to lead and serve the State of Florida, the nation, and the world by pursuing and disseminating new knowledge while building upon the experiences of the past. The University aspires to advance by strengthening the human condition and improving the quality of life.*

Vision

UF aspires to join the ranks of the nation's top public research universities. The best universities are aided by careful planning; a commitment to excellence by faculty, staff, students, alumni, and donors; and by a determination to invest in areas that enhance quality. It is this commitment to academic excellence and the resulting achievements that will lead to the University's recognition as one of the top public research universities.*

Snapshot

Year Established:	1853
Carnegie Classification:	Research Universities (very high research activity)
Campuses:	Gainesville (Main), Jacksonville, St. Petersburg, and Orlando
Student Population:	49,827 (32,660 undergraduate)
Student-To-Faculty Ratio:	21 to 1
Awards Offered:	Associate's degree, Bachelor's degree, Post baccalaureate certificate, Master's degree, Post-master's certificate, Doctorate - research/scholarship, Doctorate - professional practice
Institutes & Centers:	Total of 168, including Bob Graham Center for Public Service, Center for Aquatic and Invasive Plants, Center for Chemical Research at the Bio/Nano Interface, Center for Environmental and Human Toxicology, and Center for Movement Disorders and Neurorestoration.

FLORIDA STATE UNIVERSITY

Mission

The Florida State University (FSU) preserves, expands, and disseminates knowledge in the sciences, technology, arts, humanities, and professions, while embracing a philosophy of learning strongly rooted in the traditions of the liberal arts. The University is dedicated to excellence in teaching, research, creative endeavors, and service. The University strives to instill the strength, skill, and character essential for lifelong learning, personal responsibility, and sustained achievement within a community that fosters free inquiry and embraces diversity.*

Vision

FSU will be one of the world's premier institutions of higher education, devoted to transforming the lives of its students, shaping the future of the state and society, and offering programs of national and international distinction in a climate of inquiry, engagement, collegiality, diversity, and achievement.*
