8 (2) PRACTICE STANDARD.—

9 (a) The standard of care as provided in s. 766.102 is the
10 same regardless of whether the physician, physician assistant,

18 equipment and advanced communications technology must, at a
19 minimum, be able to provide the same information to the
20 telehealth provider as the information that would be obtained in
21 an in-person encounter with a health care provider and must
22 enable the telehealth provider to meet or exceed the prevailing
23 standard of care for the practice of the profession.

24 (c) The telehealth provider is not required to conduct a
25 patient history or physical examination of the patient before
26 engaging in a telehealth encounter if the telemedicine provider

29 (d) Before each telehealth encounter, the identification
30 and location of the telehealth provider and all other
31 individuals present via advanced communications technology who
32 will view the patient or the patient's information must be
33 identified to the patient.

34 (e) For the purposes of this act, the nonemergency
35 prescribing of a legend drug based solely on an electronic
36 questionnaire without a visual examination is considered a
37 failure to practice with the level of care, skill, and treatment
38 which is recognized by a reasonably prudent physician, physician
39 assistant, advanced registered nurse practitioner, or pharmacist
40 and is not authorized under this act.

41 (f) A telehealth provider may not use telehealth to

48 to a patient.

49 (h) A non-physician telehealth provider using telehealth
50 and acting within the relevant scope of practice, as established
51 by Florida law and rule, may not be interpreted as practicing
52 medicine without a license.
