14 (2) The Legislature finds that impact fees are an  
 15 important source of revenue for a local government to use in  
 16 funding the infrastructure necessitated by new growth. The

Amendment No.

17 Legislature further finds that impact fees are an outgrowth of  
18 the home rule power of a local government to provide certain  
19 services within its jurisdiction. Due to the growth of impact  
20 fee collections and local governments' reliance on impact fees,  
21 it is the intent of the Legislature to ensure that, when a  
22 county or municipality adopts an impact fee by ordinance or a  
23 special district adopts an impact fee by resolution, the  
24 governing authority complies with this section.

25 (3) At a minimum, impact fees ~~An impact fee~~ adopted by  
26 ordinance of a county or municipality or by resolution of a  
27 special district must, ~~at minimum~~ satisfy the following  
28 conditions:

29 (a) ~~Require that~~ The calculation of the impact fees must  
30 fee be based on the most recent and localized data.

31 (b) The local government must provide for accounting and  
32 reporting of impact fee collections and expenditures. If a local  
33 governmental entity imposes an impact fee to address its  
34 infrastructure needs, the entity shall account for the revenues  
35 and expenditures of such impact fee in a separate accounting  
36 fund.

37 (c) ~~Limit~~ Administrative charges for the collection of  
38 impact fees must be limited to actual costs.

39 (d) ~~Require that~~ Notice must be provided no less than 90  
40 days before the effective date of an ordinance or resolution  
41 imposing a new or increased impact fees fee. A county or

Amendment No.

42 municipality is not required to wait 90 days to decrease,  
43 suspend, or eliminate an impact fees fee.

44 (e) Collection of the impact fees may not occur earlier  
45 than the issuance of the building permit for the property that  
46 is subject to the fee.

47 (f) The impact fee must be reasonably connected to, or  
48 have a rational nexus with, the need for additional capital  
49 facilities and the increased impact generated by the new  
50 residential or commercial construction.

51 (g) The impact fee must be reasonably connected to, or  
52 have a rational nexus with, the expenditures of the funds  
53 collected and the benefits accruing to the new residential or  
54 commercial construction.

55 (h) The local government must specifically earmark funds  
56 collected by the impact fees for use in acquiring capital  
57 facilities to benefit the new residents.

58 (i) The collection or expenditure of the impact fee  
59 revenues may not be used, in whole or part, to pay existing debt  
60 or be used for prior approved projects unless the expenditure is  
61 reasonably connected to, or has a rational nexus with, the  
62 increased impact generated by the new residential or commercial  
63 construction.

64 (4) Audits of financial statements of local governmental  
65 entities and district school boards which are performed by a  
66 certified public accountant pursuant to s. 218.39 and submitted

Amendment No.

67 to the Auditor General must include an affidavit signed by the  
68 chief financial officer of the local governmental entity or  
69 district school board stating that the local governmental entity  
70 or district school board has complied with this section.

71 (5) In any action challenging an impact fee, the  
72 government has the burden of proving by a preponderance of the  
73 evidence that the imposition or amount of the fee meets the  
74 requirements of state legal precedent or this section. The court  
75 may not use a deferential standard.

76 Section 2. This act shall take effect July 1, 2018.

# STUDY OVERVIEW

To provide a consistent comparison of Florida's defense industry over time, this 2017 update utilizes the same econometric forecasting models and defense-related spending flows as previous studies. However, in order to bring higher fidelity to our estimates, this update incorporates distribution data from the U.S. Bureau of Economic Analysis (BEA) for National Guard personnel compensation estimates. Over time, these data are more stable than the U.S. Census data utilized in previous updates. The use of these data do not affect the total statewide impact estimates – only how the impacts associated with the National Guard are distributed across the state; otherwise, this update utilizes the same methodologies, data, and econometric models as in previous updates. This includes using the REMI PI+ 70 sector model to estimate total economic impacts at the state and county levels. As in previous years, the study relies primarily on data from the REMI model, U.S. Department of Treasury (USASpending), Department of Defense, Department of Veterans Affairs, Department of Homeland Security, Florida National Guard, DoD Base Structures Report, DoD Green Book, Census Bureau, Bureau of Economic Analysis, and Bureau of Labor Statistics.

The figure below outlines the major differences in direct inputs between the 2011, 2014, and 2016 updates. As the figure shows, procurement (contracts) flows to the state have increased by over 36.5%. Salaries to military personnel remained relatively stable, decreasing overall by 2.5%. And, transfer payments through military retirement checks and Veterans Affairs benefits, increased by 7.6%. Thus, given these overall changes, the impacts presented here are higher than those offered in previous updates.

## **Florida hosts a variety of missions that are critical to our Nation's defense.**

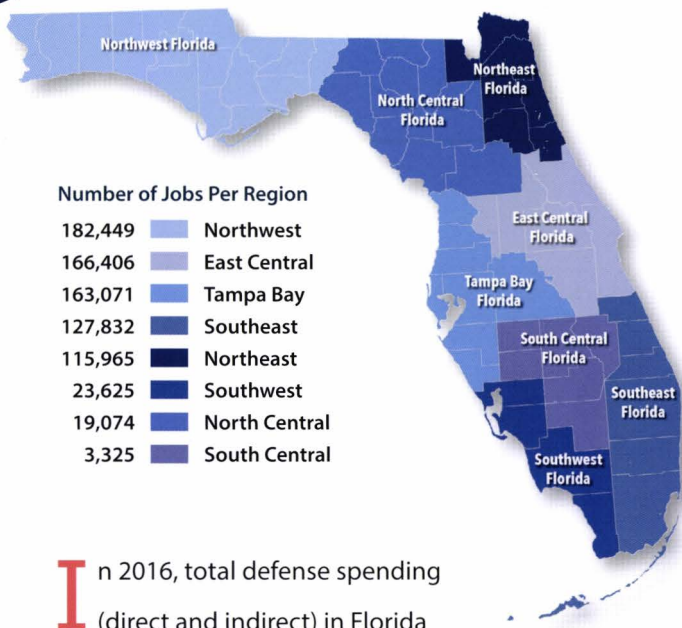

Air, land, and sea training areas and ranges associated with the Joint Gulf Range Complex host large, complex joint exercises that allow the services to train like they will fight, thus bringing tremendous advantages to our military.

Florida is home to three of ten unified combatant commands, hosts two of only four Navy deep water ports in the U.S. with adjacent airfields, the military's only east coast space launch facility, the Marine Corps's only maritime prepositioning force facility, and one of only three Navy Fleet Readiness Centers, as well as several critical research, development, training, and evaluation (RDT&E) centers. The DoD's strategy emphasizes rapidly deployable joint forces, joint training, access to space, special operations, precision strike, and research & development.

Additionally, the Joint Gulf Range Complex connects test and training ranges that extend from Key West to Northwest Florida and across the eastern Gulf of Mexico. It includes 180,000 square miles of DoD controlled airspace, as well as 724 sq. miles of adjacent land ranges, 3,200 sq. miles of airspace over adjacent land, 17 miles of shoreline access, interconnected radars and 2 launch areas for missiles. The training area contains multiple live-fire bombing ranges, including Pinecastle Range, Avon Park Air Force Range and the Eglin Bombing Range, that allow for simultaneous maritime, air, and land training exercises. Due to its tremendous capabilities and Florida's commitment to partnership, the Complex is an integral part of DoD's Training Resources Strategy.

# STATE OF FLORIDA

## Total Employment Impacts of Defense Activities

**I**n 2016, total defense spending (direct and indirect) in Florida was responsible for \$84.9 Billion, or 9.2 percent, of Florida's gross state product. Total defense spending also accounted for just over 800,000 jobs across the state - many of which are associated with a wage premium. For example, over \$4.4 Billion was directly spent in Aerospace Product and Parts Manufacturing. This accounts for over 10,000 direct jobs, which pay an average salary of over \$89,000. This industry pays approximately 85% higher than the state average of \$47,055. Defense spending creates jobs in every county in Florida. The map above displays total job impacts (direct and indirect) across the state.

**T**he East Central Region is comprised of seven counties. The region is home to Cape Canaveral Air Force Station, Patrick Air Force Base, the Naval Support Activity Orlando - Multi-Service Modeling, Simulation and Training Acquisition, and the Naval Ordnance Test Unit (NOTU). The region received nearly \$7.5 Billion in procurement spending from defense activities along with \$3.6 Billion in transfers and \$560 Million in salaries for a total of \$11.7 Billion in direct spending. These inputs generated more than 166,000 jobs in the region - a majority of which are associated with federal procurement flows. Indeed, federal procurement dollars account for almost 75,000 total jobs in the region. This region is unique in that procurement flows are the key driver of economic impacts driven largely by the presence of the industry clusters that congregate around Orange and Brevard Counties. These two counties received over \$7.3 Billion in procurement for manufacturing alone - over half of those funds were within the Aerospace industry.

Total military impacts in the region are less than the other economic regions in Florida. In 2016, the region received roughly \$243 Million in direct spending related to defense activities. These dollars accounted for approximately 3,300 jobs and generated just over \$200 Million in GRP. The vast majority of all impacts were driven by federal military spending with 3,184 total jobs. The National Guard and Coast Guard accounted for only 141 total jobs, or 4.2% of all impacts.

# SOUTHWEST FLORIDA REGION

**T**he Southwest Region is composed of three counties and is home to no major military installations. Regardless, the region benefits from military personnel (active, civilian, Guard, or Reserve), veterans, and military retirees who reside in the area. Close proximity to both the Tampa Bay and Southeast regions generated economic spill-over effects which led to the region receiving \$965 Million in total dense spending during 2016. These revenues, in turn, generated more than 23,600 jobs and accounted for \$1.9 Billion in Gross Regional Product, which is roughly 3.9% of the region's total.

# IMPACT OF FLORIDA VETERANS AND MILITARY RETIREES

**Concentration of Veterans and Military Retirees by Region, 2016**

With over 1.5 million veterans and nearly 200,000 military retirees, Florida maintains the 3rd and 2nd largest veteran and retiree population in the U.S., respectively. In addition to the \$18 Billion in transfer payments these special populations attract to the state annually, veterans and military retirees provide a competitive advantage to Florida’s workforce. Due to their knowledge, skills, and leadership abilities, many national firms, such as Amazon, focus on hiring former military. High concentrations of veterans and military retirees can act as business recruitment tools for states and local economic development organizations.

Florida maintains a veteran population 20% more concentrated than the U.S. and a military retiree population that is 50% more concentrated – thus making Florida a highly desirable state for businesses to expand and/or relocate due to its workforce competitiveness.

## FLORIDA DEFENSE ALLIANCE

*The Florida Legislature created the Florida Defense Alliance (FDA) in 1998 within Enterprise Florida as a non-profit partnership between the Governor, Florida State Officials, Federal Delegation, State Legislators, Base Commanders, community leaders, and business executives to increase military value, reduce base inefficiencies, and promote multi-service synergies for Florida's military bases. The FDA provides a superb venue for defense issue development and communication, and the sharing of best practices. For more about the FDA, visit [enterpriseflorida.com/floridadefense](http://enterpriseflorida.com/floridadefense).*

## THE FLORIDA DEFENSE SUPPORT TASK FORCE

*was established in 2011 by Florida Statute 288.987. The task force is comprised of the Governor or his designee, and four members each appointed by the Governor, the President of the Florida Senate, and the Speaker of the Florida House of Representatives. Governor Scott notes that "The work of the Task Force...in reviewing and evaluating Florida's military installations, ranges and airspace will help make sure Florida has the best facilities, and reinforce the essential role that they play in defending America's interests throughout the world."*

## FLORIDA DEFENSE SUPPORT TASK FORCE MISSION:

- *To make recommendations to preserve and protect military installations.*
- *To support the state's position in research and development related to or arising out of military missions and contracting.*
- *To improve the state's military friendly environment for service members, military dependents, military retirees and businesses that bring military and base-related jobs to the state.*
