121 381.0065 Onsite sewage treatment and disposal systems;
 122 regulation.—

123 (4) PERMITS; INSTALLATION; CONDITIONS.—A person may not
 124 construct, repair, modify, abandon, or operate an onsite sewage
 125 treatment and disposal system without first obtaining a permit

126 approved by the department. The department may issue permits to
 127 carry out this section, except that the issuance of a permit for
 128 work seaward of the coastal construction control line
 129 established under s. 161.053 shall be contingent upon receipt of
 130 any required coastal construction control line permit from the
 131 department. A construction permit is valid for 18 months after
 132 the date of issuance and may be extended by the department for
 133 one 90-day period under rules adopted by the department. A
 134 repair permit is valid for 90 days after the date of issuance.
 135 An operating permit must be obtained before the use of any
 136 aerobic treatment unit or if the establishment generates
 137 commercial waste. Buildings or establishments that use an
 138 aerobic treatment unit or generate commercial waste shall be
 139 inspected by the department at least annually to assure
 140 compliance with the terms of the operating permit. The operating
 141 permit for a commercial wastewater system is valid for 1 year
 142 after the date of issuance and must be renewed annually. The
 143 operating permit for an aerobic treatment unit is valid for 2
 144 years after the date of issuance and must be renewed every 2
 145 years. If all information pertaining to the siting, location,
 146 and installation conditions or repair of an onsite sewage
 147 treatment and disposal system remains the same, a construction
 148 or repair permit for the onsite sewage treatment and disposal
 149 system may be transferred to another person, if the transferee
 150 files, within 60 days after the transfer of ownership, an

151 amended application providing all corrected information and
152 proof of ownership of the property. A fee is not associated with
153 the processing of this supplemental information. A person may
154 not contract to construct, modify, alter, repair, service,
155 abandon, or maintain any portion of an onsite sewage treatment
156 and disposal system without being registered under part III of
157 chapter 489. A property owner who personally performs
158 construction, maintenance, or repairs to a system serving his or
159 her own owner-occupied single-family residence is exempt from
160 registration requirements for performing such construction,
161 maintenance, or repairs on that residence, but is subject to all
162 permitting requirements. A municipality or political subdivision
163 of the state may not issue a building or plumbing permit for any
164 building that requires the use of an onsite sewage treatment and
165 disposal system unless the owner or builder has received a
166 construction permit for such system from the department. A
167 building or structure may not be occupied and a municipality,
168 political subdivision, or any state or federal agency may not
169 authorize occupancy until the department approves the final
170 installation of the onsite sewage treatment and disposal system.
171 A municipality or political subdivision of the state may not
172 approve any change in occupancy or tenancy of a building that
173 uses an onsite sewage treatment and disposal system until the
174 department has reviewed the use of the system with the proposed
175 change, approved the change, and amended the operating permit.

176 (e) The department shall adopt rules relating to the
 177 location of onsite sewage treatment and disposal systems,
 178 including establishing setback distances, to prevent groundwater
 179 contamination and surface water contamination and to preserve
 180 the public health. The rulemaking process for such rules must be
 181 completed by July 1, 2022, and the department shall notify the
 182 Division of Law Revision of the date such rules take effect. The
 183 rules must consider conventional and enhanced nutrient-reducing
 184 onsite sewage treatment and disposal system designs, impaired or
 185 degraded water bodies, domestic wastewater and drinking water
 186 infrastructure, potable water sources, nonpotable wells,
 187 stormwater infrastructure, the onsite sewage treatment and
 188 disposal system remediation plans developed pursuant to s.
 189 403.067(7)(a)9.b., nutrient pollution, and the recommendations
 190 of the onsite sewage treatment and disposal systems technical
 191 advisory committee established pursuant to former s. 381.00652.
 192 The rules must also allow a person to apply for and receive a
 193 variance from a rule requirement upon demonstration that the
 194 requirement would cause an undue hardship and granting the
 195 variance would not cause or contribute to the exceedance of a
 196 total maximum daily load.

197 Reviser's note.—Amended to conform to the repeal of s. 381.00652
 198 by this act.

199 Section 13. Paragraph (f) of subsection (3) of section

208 1. The responsibility of school districts to provide
 209 transportation to another public school pursuant to ss. 1002.38~~7~~
 210 ~~1002.397~~ and 1002.394.

 239 adopted child;

240 c. Spent the prior school year in attendance at a Florida
 241 public school or the Florida School for the Deaf and the Blind.
 242 For purposes of this subparagraph, the term "prior school year

 244 by:

 262 calculated scholarship amount for a student participating in the
