Representative Kamia Brown Files the Office of Minority Health and Health Equity Bill

TALLAHASSEE, Fla. – Representative Brown’s (D-Ocoee) bill [HB 183](#), the Office of Minority Health and Health Equity Bill, has just passed through the Professions & Public Health Committee. Its purpose is to develop and promote the statewide implementation of policies, programs, and practices that increase health equity in Florida.

“I am so proud to have the support of my colleagues in advancing the health, safety, and well-being of our minority communities,” says **Representative Brown**. “Bills such as this seek to have us really transform our intent and approach by providing community-level engagement as a core principle in having better outcomes in health care and education.”

This bill includes measures such as increased access to and quality of health care services for racial and ethnic minority populations.
