Rep. Angie Nixon on Gov. Ron DeSantis Filing to Run for President

TALLAHASSEE, FLA – Today, Florida Governor Ron DeSantis, has [officially filed to run for President of the United States.](#)

Representative Angie Nixon (D-Jacksonville) offered the following statement:

“America, Governor Ron DeSantis is a tantrum-throwing bully who threatens our ability to live our lives free from tyranny and oppression. He’s bought and paid for by the wealthy corporate elites while he sacrifices the health, safety, livelihoods, and futures of all Floridians. Ron DeSantis has relentlessly attacked our freedoms, signing a near-total abortion ban, implementing permitless carry of hidden, loaded guns that makes us less safe, and enforcing unconstitutional laws that are costing Floridians millions to defend in court.

This is a warning for all Americans: do not trust Ron DeSantis because he’ll always do what’s best for his own political career while the people get left further behind. And while Americans of all races, places, and backgrounds value our fundamental freedoms, Ron DeSantis will take all that we hold dear if it means taking another step up the political ladder.”
